little by little, more robots tend to follow. In fact, the first use of the word robot occurred in a purely mechanical manner that are built to work in factory lines and then to bring them under human masters. The machines in RURUM Unveiled Robots written by Czech playwright Karel Capek in 1921 go through from the Czech word for slave. The word robot was coined by a writer Russian born American science fiction writer Isaac Asimov from the word in 1942 in his short story Run but Asimov had a much brighter and more optimistic view of the robot's role in human life than did Clarke. He generally characterized the robots in his short stories as helpful servants for men and women and women. What you will learn: Set up a Raspberry Pi to be used in a robot.
