new abstract notion of the reader as the conceptual space containing all the text's possible meanings. The essay has become one of the most cited works in literary criticism and is a key text for any reader approaching reader response theory. **On**

Racine Roland Barthes, 1983 **Author Fictions** Ingo Berensmeyer, 2023-10-04 Fictional novelists and other author characters have been a staple of novels and stories from the early nineteenth century onwards. What is it that attracts authors to representing their own kind in fiction? *Author Fictions* addresses this question from a theoretical and historical perspective. Narrative representations of literary authorship not only reflect the aesthetic convictions and social conditions of their actual authors or their time; they also take an active part in negotiating and shaping these conditions. The book unfolds the history of such author fictions in European and North American texts since the early nineteenth century as a literary history of literary authorship ranging from the Victorian bildungsroman to contemporary autofiction. It combines rhetorical and sociological approaches to answer the question how literature makes authors. Identifying author fictions as narratives that address the fragile material conditions of literary creation in the actual and symbolic economies of production, Ingo Berensmeyer explores how these texts elaborate and manipulate concepts and models of authorship. This book will be relevant to English, American, and comparative literary studies and to anyone interested in the topic of literary authorship.

Roland Barthes Michael Moriarty, 2014-01-23 This book provides a lively introduction to the work of Roland Barthes, one of the twentieth century's most important literary and cultural theorists. The book covers all aspects of Barthes's writings, including his work on literary theory, mass communications, the theatre, and politics. Moriarty argues that Barthes's writing must not be seen as an unchanging body of thought and that we should study his ideas in the contexts within which they were formulated, debated, and developed. **The History of the Book in the West: 1914-2000** Alexis Weedon, 2017-03-02

This collection brings together published papers on key themes which book historians have identified as of particular significance in the history of twentieth-century publishing. It reprints some of the best comparative perspectives and most insightful and innovatively presented scholarship on publishing and book history from such figures as Philip Altbach, Lewis Coser, James Curran, Elizabeth Long, Laura Miller, Angus Phillips, Janice Radway, Jonathan Rose, Shafquat Towheed, Catherine Turner, Jay Satterfield, Clare Squires, Eva Hemmungs Wirtén. It is arranged into six sections which examine the internationalisation of publishing, businesses, changing notions of authorship, innovation in the design and marketing of books, the specific effects of globalisation on creative property, and the book in a multimedia marketplace. Twentieth-century book history attracts an audience beyond the traditional disciplines of librarianship, bibliography, history, and literary studies. It will appeal to publishing, educators, editors, publishers, booksellers, as well as academics with an interest in media and popular culture. *Criticism and Truth* Roland Barthes, 2007-02-22 Roland Barthes (1915-1980) was a major French writer, literary theorist, and critic of French culture and society. His classic works include *Mythologies* and *Camera Lucida*. *Criticism and Truth* is a brilliant discussion of the language of literary criticism and a key work in the Barthes canon. It is a cultural

linguistic and intellectual challenge to those who believe in the clarity flexibility and neutrality of language couched in Barthes own inimitable and provocative style S/Z. Bulletproof Vest Kenneth R. Rosen, 2020-04-16 A WIRED 2020 Book of the Year Object Lessons is a series of short beautifully designed books about the hidden lives of ordinary things Nothing's bulletproof the salesman said The thing's only bullet resistant The New York Times journalist Kenneth R. Rosen had just purchased his first bulletproof vest and was headed off on assignment He was travelling into Mosul Iraq when he realized that the idea of a bulletproof vest is more effective than the vest itself From its very inception poly paraphenylene terephthalamide or Kevlar was meant for tires Its humble roots and mundane applications are often lost as it is now synonymous with body armor war zones and domestic terrorism What Rosen learned through intimate use of his vest was that it acts as a metaphor for all the precautions we take toward digital physical and social security Bulletproof Vest is at once an introspective journey into the properties and precisions of a bulletproof vest on a molecular level and on the world stage It's also an ode to living precariously an open letter that defends the notion that life is worth the risk A portion of the author's proceeds will be donated to RISC a nonprofit that provides emergency medical training to freelance conflict journalists For more information go to www.risctraining.org
