Thesis or Dissertation demystifies the writing experience and presents step by step directions for successfully completing your project

Teaching Statistics and Quantitative Methods in the 21st Century Joseph Lee Rodgers, 2020-07-14 This work which provides a guide for revising and expanding statistical and quantitative methods pedagogy is useful for novice and seasoned instructors at both undergraduate and graduate levels inspiring them to use transformative approaches to train students as future researchers Is it time for a radical revision in our pedagogical orientation How are we currently teaching introductory statistics and quantitative methods and how should we teach them What innovations are used what is in development This ground breaking edited volume addresses these questions and more providing cutting edge guidance from highly accomplished teachers Many current textbooks and syllabi differ in only superficial ways from those used 50 years ago yet the field of quantitative methods and its relationship to the research enterprise has expanded in many important ways A philosophical axiom underlying this book is that introductory teaching should prepare students to potentially enter more advanced quantitative methods training and ultimately to become accomplished researchers The reader is introduced to classroom innovation and to both pragmatic and philosophical challenges to the status quo motivating a broad revolution in how introductory statistics and quantitative methods are taught Designed to update and renovate statistical pedagogy this material will stimulate students new instructors and experienced teachers

Empowering Higher Education in Indonesia A. Chaedar Alwasilah, Judith Puncocar, 2018-04-01 This book is a concrete solution to the challenges in developing higher education in Indonesia The proposed perspectives and ideas are ideal to be developed by teachers and lecturers in their own classroom The two best parts of this book are 1 how the educators especially in universities should form critical thinking habit in their classroom through respectful and scholarly discussion and 2 how universities should become the centre of teaching for learning Those are vital as educating today s students is our best investment to develop their willingness of life long learning and the ability of critical thinking In the future these students will determine the fate of Indonesia Therefore let s empower higher education in Indonesia by applying the constructive suggestions proposed in this book

Engaging Undergraduates in Publishable Research: Best Practices Traci A. Giuliano, Jeanine L. M. Skorinko, Marianne Fallon, 2019-11-20 Although many articles and books have been written about conducting research with undergraduates there is a dearth of research on the process of publishing with undergraduates Thus in this research topic we assembled a collection of 43 articles from 98 researchers worldwide who are passionate about and have had success in publishing high quality peer reviewed journal articles with undergraduates The diverse articles represent a wide range of practices to help researchers publish with undergraduates including structuring the curriculum to promote undergraduate research and publication optimizing research experiences for undergraduates training students in implementing advanced techniques accessing special populations or conducting research in off campus settings addressing institutional and career challenges for faculty and increasing inclusion and diversity Each article provides a unique and diverse perspective that nevertheless resonates across contexts and situations We hope that the ideas models techniques and

practices in these articles will motivate and inspire readers to begin continue or rethink how they engage undergraduates in publishable research we also hope to stimulate empirical and quantitative research on the effectiveness of these ideas models techniques and practices
