## Library Management System

### INTRODUCTION

Information Technology has revolutionized the life of human beings and has made lives easier by the various kinds of applications. In the light of the rapid changes with the use of Information Technology, there are many tools, technologies and systems that have been produced and invented. The main objective of this project is to develop a Library Management system (LMS) for GDC Wari Dir Upper in order to automate the library tasks and make the library management more efficient and easy to handle. Library is place where all kind of books are available in hard copy or digital format. The library management system enables a fully automated library service and will be a web based application where only registered users will have access to the system.

### PROBLEM STATEMENT

Library management system is a project which aims at developing a computerized system to maintain and automate all the daily work of library. In the existing system GDC Wari all the transaction of books such as borrowing and returning are done manually which takes time to complete. Another major disadvantage is that to prepare the list of books borrowed, returned and the available books in the library takes at least a day to complete this process. Library management system is a project which aims in developing a computerized system to maintain all the daily work of library.

Major draw backs in existing systems are

- ✓ Inconsistency in data entry, room for errors.
- ✓ System is dependent on good individuals.
- ✓ Time consuming and costly to produce reports.
- ✓ Lack of security.
- ✓ Duplication of data entry.
- ✓ Fast report generation is not possible.
- ✓ Tracing a book is difficult

"Library Management System" is designed to help users maintain and organize library. Overall this project of ours is being developed to help the students as well as staff of library to maintain the library in the best way possible and also reduce the human efforts. With this computerized system there will be no loss of book record or member record which generally happens when a non-computerized.

### PROJECT AIMS, SCOPE AND OBJECTIVES

The main objective of this proposed Library management system is to fully automate all the daily works of the GDC Wari Library. Other Aim and objective of Online Library Management System includes:

- ✓ Create distinct users privilege based on their roles and permissions.
- ✓ Authenticate users at their login.
