Deciding if the Validity Checklist, the second part of the Analysis procedure, is able to determine truthfulness of allegations in child sexual abuse cases, testing the efficacy of the model designed at the National Children's Advocacy Center (NCAC) which may be used to validate abuse and determine if children's statements are accurate, overcoming difficulties in the child protection system including the probability of multiple interviews and potential contamination of children's narratives by a variety of sources to produce fair evaluations and successful prosecutions.
