Migrating from the CRPE API to the Report Designer Component

Overview

This document helps illustrate the benefits of using this newest Report Designer Component technology for integrating reporting functionality into Visual Basic and Visual C++ applications. It also explains how Visual Basic and Visual C++ developers can migrate from the Crystal Report Print Engine (CRPE) API to the Report Designer Component (RDC) as their primary integration method. This document includes an overview of the RDC, descriptions of its major components and object model, and an outline of its advanced features not available within the CRPE API.
