be studied Subsequently in Part III In Completion Richard Wilhelm s translation of the Yi Jing which lay down the fundamental principles for Chinese thought Schweitzer s final manuscript from 1939 40 under the title Geschichte des indischen und chinesischen Denkens and his final depiction of Chinese thought will be given special attention The starting point for Schweitzer s China research was his ideal ethical philosophy of Reverence for Life which he formulated in the context of the decline of the Western civilization and was heavily shaped by his religious and philosophical convictions Reverence for Life underscored humanistic concerns and its ideals eventually became Schweitzer s interpretative principles in his investigation of Chinese thought Schweitzer was never a specialist in Chinese thought and Chinese civilization Dependent on the research of European sinologists his China research served to justify the necessity for Reverence for Life as well as of the methods for applying this new ethical philosophy During his entire China research Schweitzer made great efforts to critically interpret and transform the knowledge that had been conveyed by European sinologists such as Richard Wilhelm Although in his final research Schweitzer had already seen great resemblance between classical Confucianism in China and his Reverence for Life he did not ultimately manage to verify his assumptions His final manuscript on Chinese thought from 1939 40 remained unpublished when he passed away in 1965 *In Search of a Universal Ethic* Catholic
