Explaining Religious Party Strength Mário Rebelo,2022-12-30 Explaining Religious Party Strength explores why religious

political parties are electorally successful in some countries but not in others Drawing on insights from political science and sociology this book argues that religious parties are typically formed for defensive reasons reacting against state builders attempts to secularize public services such as education welfare and healthcare Building on these findings the author argues that the strength of religious parties is determined by the infrastructural power of the state Weak states that fail to provide adequate public services open up space for religious communities to build a dense network of private schools hospitals and charities which translates into votes for religious political parties By contrast strong states that provide efficient public services squeeze out private welfare providers undermining the electoral strength of religious political parties The author tests this theory through statistical analysis using a new dataset on all religious parties which have participated in national parliamentary elections between 1800 and 2015 He includes comparative historical analyses of Roman Catholic political parties in France and Italy and Sunni Islamic political parties in Egypt Turkey and Albania This book will interest students and scholars of religion and politics specifically those interested in party formation voting and political activism as well as policymakers

Violent Non-State Actors Zdenek Ludvík, 2023-05-15 *Violent Non State Actors* The Politics of Territorial Governance is an original in depth scholarly explanation of the impact of territorial penetration control and governance on the effectiveness of the activities of violent non state actors VNSA The theoretical framework operates with the assertion that a non linear causal relationship mediated through the capacity for territorial control and governance exists between the effectiveness of objective achievement and territorial penetration Using four case studies Zdenek Ludvík links these interrelated concepts of territorial penetration territorial control and territorial governance into an interrelated sequentially conceptualized causal framework To this end extensive and unique empirical material gathered to examine the activities of VNSA in considerable detail presents a wholly original and comprehensive method of measuring the degree of territorial capability of VNSA Zdenek Ludvík demonstrates

that there is no directly proportional relationship between territorial penetration and objective effectiveness since neither territorial penetration nor territorial control alone are sufficient to achieve increased effectiveness He shows that territorial penetration and territorial governance are necessary conditions for objective effectiveness since only when territorial penetration and territorial control are followed by territorial governance at the level of advanced wartime social order can VNSA hope to achieve a higher degree of effectiveness Political Handbook of the World 2008 Arthur S Banks, William Overstreet, Thomas Muller, 2008-04-15 With more than 200 entries on countries and territories throughout the world this bestselling volume is the most authoritative one stop source for finding facts and analysis on each country's governmental and political makeup **Coalitional Presidentialism in Comparative Perspective** Paul Chaisty, Nic Cheeseman, Timothy J. Baloch,2021-10-07 Comparativist scholarship conventionally gives unbridled primacy to external material interests chiefly votes and rents as proximately shaping political behaviour These logics tend to explicate elite decision making around elections and pork barrel politics but fall short in explaining political conduct during credibility crises such as democratic governments facing anti corruption movements In these instances Baloch shows elite ideas for example concepts of the nation or technical diagnoses of socioeconomic development dominate policymaking Scholars leverage these arguments in the fields of international relations American politics and the political economy of development But an account of ideas activating or constraining executive action in developing democracies where material pressures are high is found wanting Resting on fresh archival research and over 120 original elite interviews *When Ideas Matter* traces where ideas come from how they are chosen and when they are most salient for explaining political behaviour in India and similar contexts *International Economic Law and Governance* Julien Chaisse,Tsai-yu Lin,2016-08-11 Nation states have long and successfully claimed to be the proper and sovereign forum for determining a country s international economic policies Increasingly however supranational and non governmental actors are moving to the front of the stage New forms of multilateral and global policy making have emerged including states and national administrations key international organizations international conferences multinational enterprises and a wide range of transnational pressure groups and NGOs that all claim their share in exercising power and influence on international and domestic policy making In honour of Professor Mitsuo Matsushita s intellectual contributions to the field of international economic law this volume reflects on the current state and the future of international economic law The book addresses a broad spectrum of themes in contemporary international economic regulations and focuses specifically on the significant areas of Professor Matsushita s scholarship including the rise of the soft law mechanism in international economic regulation the role of the WTO and dispute settlement and specific areas such as competition subsidies anti dumping intellectual property and natural resources Part one of the volume provides a comprehensive and critical analysis of the rule based international dispute settlement mechanisms Part two investigates the normative influences to and from WTO law and Part three focuses on policy and law making issues **Federalism and Decentralization in Africa** Leonid Issaev,Andrey Zakharov,2024-11-09 This book examines the challenges and opportunities of administrative and territorial reconstruction in Africa from independence until the present time In light of the rise of separatist movements in various African states and the ethnic linguistic and religious heterogeneity of many African societies the book sheds new light on the fragmentation and

Regime Dynamics in EU's Eastern Neighbourhood Sergiu Buscaneanu, 2017-01-04 This book examines the effectiveness and consistency of EU democracy promotion in its Eastern neighbourhood between 1991 and 2014 It concludes that the EU's democratization role in this region was not surprisingly weak within this time period However this weak role only took shape under four domestic and transnational conditions a a higher cost benefit balance of rule transfer b a lower structural difficulty a given country would need to overcome on its way towards a democratic regime c increased levels of authority distribution across branches of power and d a higher extent of democratic diffusion resulting from regional interactions In those countries where these domestic and transnational conditions were present as in Moldova Ukraine and Georgia the EU's democratizing influence was in causal terms only the tip of the iceberg Most variation in regime dynamics remains to be explained by domestic and transnational contexts
