Pollution Essay In Punjabi:

Culture, Creation, and Procreation Monika Böck, Aparna Rao, 2001-01-01 As reproduction is seen as central to kinship and the biological link as the primary bond between parents and their offspring Western perceptions of kin relations are primarily determined by ideas about consanguinity genealogical relations and genetic connections Advocates of cultural constructivism have taken issue with a concept that puts so much stress on heredity as being severely biased by western ideas of kinship Ethnologists in particular developed alternative systems using indigenous categories This symbolic approach has however been rejected by some scholars as plagued by the problems of the analytical separation of ideology from practice of largely overlooking relations of domination and of ignoring the questions of shared knowledge and choice This volume offers a corrective by discussing the constitution of kinship among different communities in South Asia and addressing the relationship between ideology and practice cultural models and individual strategies **Punjabi Kinship and Marriage** Paul Herschman, 1981 Ethnographic account of the operation of kin groups in present day rural Indian Punjab the forms and functions of the domestic group lineage and kindred among the predominantly Jat Sikh population Bk jacket *Exploring Gypsiness* Ada I. Engebriksen, 2007 Romania has a larger Gypsy population than most other countries but little is known about the relationship between this group and the non Gypsy Romanians around them This book focuses on a group of Rom Gypsies living in a village in Transylvania and explores their social life and cosmology Because Rom Gypsies are dependent on and define themselves in relation to the surrounding non Gypsy populations it is important to understand their day to day interactions with these neighbors primarily peasants to whom they relate through extended barter The author comes to the conclusion that although economically and politically marginal Rom Gypsies are central to Romanian collective identity in that they offer desirable and repulsive counter images incorporating the uncivilized immoral and destructive other This interdependence creates tensions but it also allows for some degree of cultural and political autonomy for the Roma within Romanian society Learned Asia: Educationists who's who , 1992 **Bhangra Moves** Anjali Gera Roy, 2017-07-05 Bhangra is commonly understood as the hybrid music produced in Britain by British Asian music producers through mixing Punjabi folk melodies with western pop and black dance rhythms This is derived from a Punjabi harvest dance of the same name This book looks at Bhangra s global flows from one of its originary sites the Indian subcontinent to contribute to the understanding of emerging South Asian cultural practices such as Bhangra or Bollywood in multi ethnic societies It seeks to trace Bhangra s moves from Punjab and its return back to look at the forces that initiate and regulate global flows of local texts and to ask how their producers and consumers redirect them to produce new definitions of culture identity and nation The critical importance of this book lies in understanding the difference between the present globalizing wave and previous trans local movements Gera Roy contrasts the frames of cultural imperialism with those of cultural invasion to show how Indian cultures have constantly reinvented themselves by cross pollinating with invading cultures such as Hellenic Persian

Arabic and many others in the past By looking at Bhangra s flows to and from India the book revises the relation between culture space and identity and challenges boundaries It weighs both the uses and costs of visibility provided by global networks to marginalized groups in diverse localities and explores whether collaborations between Bhangra practitioners largely of working class origin give ordinary people any control over the circulation of culture in the global village Finally the book considers whether cultural practices can alter hierarchies and power structures in the real world

When Does History Begin? Harjot Oberoi, 2022-01-01 Focusing on important issues in Sikh religious identity and memory Harjot Oberoi shows how premodern techniques of narrating the past and truth telling in South Asia were deeply transformed by colonialism Indian historiographical praxis has long been problematic Al Biruni the eleventh century polymath was puzzled by how people in the subcontinent treated the protocols of history it escaped his learning that Indian narrative constructions of the past were embedded in an intricate canon of poetical traditions and represented a radical departure from historical narratives in the Islamic Sinic and Greco Roman worlds Where others tended to search for facts people in South Asia looked for affect This alternative model for comprehending and evaluating the past through aesthetics and gradients of taste generated a crucially different variety of historical consciousness Oberoi s examination of the Sikh tradition demonstrates what modern critical narrative achieves when it moves away from classical models traversing significant moments in colonialism coercion and protest in the Raj the production of knowledge the rise of secular nationalism and modern notions of the self within and outside India **Journal of Social and Economic Development** , 1999 With reference to India *Social Structure and Change* A M Shah, B S Baviskar, E A Ramaswamy, 1998-11-24 The essays in this volume deal with issues related to religion and kinship extending and diversifying some of the concerns in modern sociological and social anthropological studies on religion in India pioneered by M N Srinivas The contributors analyze varied themes including differences between the beliefs and practices of Hinduism and Sikhism the division of male and female within the self the translation of pollution ideas from ancient to modern societies crisis management in Indian
