Blessings of Disaster Michel Bruneau,2022-11-08 Are we doomed As individuals certainly eventually inevitably But as a species As a civilization Leading catastrophe engineer Michel Bruneau thinks perhaps not The Blessings of Disaster draws on knowledge from multiple disciplines to illustrate how our civilization s future successes and failures in dealing with societal threats be they pandemics climate change overpopulation monetary collapse and nuclear holocaust can be predicted by observing how we currently cope with and react to natural and technological disasters Maybe most importantly this entertaining and often counter intuitive book shows how we can think in better ways about disasters to strengthen and extend our existence as both
