 the new Relationship Managers RM Assistant Relationship Managers Credit Analysts and trainees of banks working in the
 Corporate Banking units of banks to serve them as a reference guide for preparation of limit applications for approval It

would help them to understand various risks that can affect a company and also the post approval monitoring of the accounts. It provides an overview and is not meant to make the RM an expert on any industry or lending which comes from experience for which he will have to study the industries and develop himself. I have also included self explanatory checklists that can be of help. As there could be staff transferred from Personal Banking or Operations to the Corporate Units I have added a blank spreadsheet with definitions of some basic components and the products offered for ready reference. I have therefore kept it very simple to understand. When I worked in banks I had no reference book and had to pick up things on my own. That is what prompted me to write this book.

Opening a Restaurant Or Other Food Business Starter Kit Sharon L. Fullen, 2005. Book CD ROM. Restaurants are one of the most frequently started small businesses yet have one of the highest failure rates. A business plan precisely defines your business, identifies your goals and serves as your firm's resume. The basic components include a current and proforma balance sheet, an income statement and a cash flow analysis. It helps you allocate resources properly, handle unforeseen complications and make good business decisions. Because it provides specific and organized information about your company and how you will repay borrowed money, a good business plan is a crucial part of any loan application. Additionally, it informs personnel, suppliers and others about your operations and

goals Despite the critical importance of a business plan many entrepreneurs drag their feet when it comes to preparing a written document They argue that their marketplace changes too fast for a business plan to be useful or that they just don't have enough time But just as a builder won't begin construction without a blueprint eager business owners shouldn't rush into new ventures without a business plan The CD ROM will cover the following subjects Elements of a Business Plan Cover sheet Statement of purpose The Business Description of The Restaurant Marketing Competition Operating procedures Personnel Business insurance Financial Data Loan applications Capital equipment and supply list Balance sheet Breakeven analysis Pro forma income projections profit loss statements Three year summary Detail by month first year Detail by quarters second and third years Assumptions upon which projections were based Pro forma cash flow Supporting Documents For franchised businesses a copy of franchise contract and all supporting documents provided by the franchisor Copy of proposed lease or purchase agreement for building space Copy of licenses and other legal documents Copy of resumes of all principals Copies of letters of intent from suppliers etc A new study from The Ohio State University has found the restaurant industry failure rate between 1996 and 1999 to be between 57 61 percent over three years Don't be a statistic on the wrong side plan now for success with this new book and CD Rom package **Resources in Education** ,1998-04
