Explaining Religious Party Strength Mário Rebelo,2022-12-30 Explaining Religious Party Strength explores why

religious political parties are electorally successful in some countries but not in others Drawing on insights from political science and sociology this book argues that religious parties are typically formed for defensive reasons reacting against state builders attempts to secularize public services such as education welfare and healthcare Building on these findings the author argues that the strength of religious parties is determined by the infrastructural power of the state Weak states that fail to provide adequate public services open up space for religious communities to build a dense network of private schools hospitals and charities which translates into votes for religious political parties By contrast strong states that provide efficient public services squeeze out private welfare providers undermining the electoral strength of religious political parties The author tests this theory through statistical analysis using a new dataset on all religious parties which have participated in national parliamentary elections between 1800 and 2015 He includes comparative historical analyses of Roman Catholic political parties in France and Italy and Sunni Islamic political parties in Egypt Turkey and Albania This book will interest students and scholars of religion and politics specifically those interested in party formation voting and political activism as well as policymakers

Violent Non-State Actors Zdenek Ludvík, 2023-05-15 Violent Non State Actors The Politics of Territorial Governance is an original in depth scholarly explanation of the impact of territorial penetration control and governance on the effectiveness of the activities of violent non state actors VNSA The theoretical framework operates with the assertion that a non linear causal relationship mediated through the capacity for territorial control and governance exists between the effectiveness of objective achievement and territorial penetration Using four case studies Zdenek Ludvík links these interrelated concepts of territorial penetration territorial control and territorial governance into an interrelated sequentially conceptualized causal framework To this end extensive and unique empirical material gathered to examine the activities of VNSA in considerable detail presents a wholly original and comprehensive method of measuring the degree of territorial capability of VNSA Zdenek Ludvík demonstrates

that there is no directly proportional relationship between territorial penetration and objective effectiveness since neither territorial penetration nor territorial control alone are sufficient to achieve increased effectiveness He shows that territorial penetration and territorial governance are necessary conditions for objective effectiveness since only when territorial penetration and territorial control are followed by territorial governance at the level of advanced wartime social order can VNSA hope to achieve a higher degree of effectiveness

Power, 2018-02-02 This book provides the first cross regional study of an increasingly important form of politics coalitional presidentialism Drawing on original research of minority presidents in the democratising and hybrid regimes of Armenia Benin Brazil Chile Ecuador Kenya Malawi Russia and Ukraine it seeks to understand how presidents who lack single party legislative majorities build and manage cross party support in legislative assemblies It develops a framework for analysing this phenomenon and blends data from MP surveys detailed case studies and wider legislative and political contexts to analyse systematically the tools that presidents deploy to manage their coalitions The authors focus on five key legislative cabinet partisan budget and informal exchange of favours tools that are utilised by minority presidents They contend that these constitute the toolbox for coalition management and argue that minority presidents will act with imperfect or incomplete information to deploy tools that provide the highest return of political support with the lowest expenditure of political capital In developing this analysis the book assembles a set of concepts definitions indicators analytical frameworks and propositions that establish the main parameters of coalitional presidentialism In this way Coalitional Presidentialism in Comparative Perspective provides crucial insights into this mode of governance Oxford Studies in Democratization is a series for scholars and students of comparative politics and related disciplines Volumes concentrate on the comparative study of the democratization process that accompanied the decline and termination of the cold war The geographical focus of the series is primarily Latin America the Caribbean Southern and Eastern Europe and relevant experiences in Africa and Asia The series editor is Laurence Whitehead Senior Research Fellow Nuffield College University of Oxford

When Ideas Matter Bilal A. Baloch, 2021-10-07 Comparativist scholarship conventionally gives unbridled primacy to external material interests chiefly votes and rents as proximately shaping political behaviour These logics tend to explicate elite decision making around elections and pork barrel politics but fall short in explaining political conduct during credibility crises such as democratic governments facing anti corruption movements In these instances Baloch shows elite ideas for example concepts of the nation or technical diagnoses of socioeconomic development dominate policymaking Scholars leverage these arguments in the fields of international relations American politics and the political economy of development But an account of ideas activating or constraining executive action in developing democracies where material pressures are high is found wanting Resting on fresh archival research and over 120 original elite interviews *When Ideas Matter* traces where ideas come from how they are chosen and when they are most salient for explaining political behaviour in India and similar contexts

Regime Dynamics in EU's Eastern Neighbourhood Sergiu Buscaneanu, 2017-01-04 This book examines the effectiveness and consistency of EU democracy promotion in its Eastern neighbourhood between 1991 and 2014 It concludes that the EU's democratization role in this region was not surprisingly weak within this time period However this weak role only took shape under four domestic and transnational conditions a a higher cost benefit balance of rule transfer b a lower structural difficulty a given country would need to overcome on its way towards a democratic regime c increased levels of authority distribution across branches of power and d a higher extent of democratic diffusion resulting from regional interactions In those countries where these domestic and transnational conditions were present as in Moldova Ukraine and Georgia the EU's democratizing influence was in causal terms only the tip of the iceberg Most variation in regime dynamics remains to be explained by domestic and transnational contexts
