Multipoint and gateway platform support for your video, voice and unified conferencing needs, today and tomorrow

Polycom MGC-100 Benefits

One MGC platform – supports your audio, video and unified multipoint and gateway conferences over any network.

Flexible configurations and upgrades – specifically address your requirements for conference support.

Low to high end scalability – port and feature capacities to build needed conference support today and address requirement for support in the future.

System reliability and ease of maintenance – proven high levels of performance and ease of maintenance and support.

Full, automatic transcoding – enables the seamless connection of audio and video endpoints into a conference.

Shared resource system architecture – MGC hardware and software improves system reliability, and decreases the cost of ownership.

Easy, clearly defined migration path – provides investment protection and the flexibility to increase capacity or add new conference support capabilities, when they are needed.

Polycom's MGC-100 delivers a high level of reliable multipoint and gateway conferencing support and unique capabilities to flexibly build conferencing solutions, regardless of audio, or video endpoint or network connection.

Low to high end scalability, the industry's best transcoding and the full resource sharing architecture of the Polycom MGC-100 makes it easy to transition from switched to packet based service support.

Build VideoPlus Polycom MGC-100 configurations to support ISDN and/or IP video multipoint and gateway conferences. VoicePlus configurations can support PSTN and/or VoIP. Build a Unified Conferencing configuration that supports voice and video conferencing over any network.

Polycom's MGC-100 can be configured to support revolutionary features such as Click&View and key pad conference management control in an audio, video or unified conference.

The platform for The Polycom Office™
