the southern Aegean formed active networks of political religious and cultural interaction Four case studies examine different types of networks on and around Delos covering the federal organisation of islands into the so called Islanders League the participation of Delian and other agents in the processes of monumentalisation of the Delian landscape the network of honours of the Delian community and the social dynamics of dedication through the record of dedicants in the Delian inventories They reveal not only that these kinds of regional interaction in the southern Aegean were pervasive but also that they had a significant impact on the creation of a regional identity one that persisted despite the political changes of the age
