Women, Literature and Development in Africa Anthonia C. Kalu, 2019-12-09 This book is a powerful exploration of the role of women in the evolution of African thinking and narratives on development from the precolonial period right through to the modern day Whilst the book identifies women's oppression and marginalization as significant challenges to contemporary Africa's advancement it also explores how new written narratives draw on traditional African knowledge systems to bring deep rooted and sometimes radical approaches to progress The book asserts that Africans must tell their own stories expressed through the complex meanings and nuances of African languages and often conveyed through oral traditions and storytelling in which women play an important role The book's close examination of language and meaning in the African narrative tradition advances the illumination and elevation of African storytelling as part of a viable and valid knowledge base in its own right rather than as an extension of European paradigms and methods Anthonia C Kalu's new edition of this important book fully revised throughout will also include fresh analysis of the role of digital media education and religion in African narratives At a time when the prominence and participation of African women in development and sociopolitical debates is growing this book's exploration of their lived experiences and narrative contribution will be of interest to students of African literature gender studies development history and sociology

Dutch Interbellum Canons and World Literature A. Roland Holst, M. Nijhoff, J. Slauerhoff Theo D'haen, 2023-09-15 This text takes a wholly new look at a major early twentieth century Dutch poet and novelist from the perspective of world literature situating his work in both a national and a world literary context as measured against contemporaries and near contemporaries such as Conrad Pound Brecht Segalen and Malraux Exemplifying how an author from a minor literature may be a major world author this book considers the debates within World Literature regarding the classification of literatures as major and minor canon formation within Dutch literature Slauerhoff's position in the Dutch tradition as well as his contribution to world literature particularly focusing on his East Asian poems his East Asian novels and stories and his poetry and prose set in Latin America This book is a key read for scholars and students of comparative literature world literature European literature and Dutch literature Lucid in style innovative in approach surprisingly fresh qua topic this book opens new horizons for literary studies

Canon Fanfiction Christine Schott, 2023-01-30 Several scholarly fields investigate the reuse of source texts most relevantly adaptation studies and fanfiction studies The limitation of these two fields is that adaptation studies focuses narrowly on retelling usually in the form of film adaptations but is not as well equipped to treat other uses of source material like prequels sequels and spinoffs On the

other hand fanfiction studies has the broad reach adaptation studies lacks but is generally interested in underground production rather than material that goes through the official publication process and thus enters the literary canon This book sits in the gap between these fields discussing published novels and their contribution to the scholarly engagement with their pre and early modern source material as well as applying that creative framework to the teaching of literature in the college classroom

Born Translated Rebecca L. Walkowitz, 2015-08-04 As a growing number of contemporary novelists write for publication in multiple languages the genre's form and aims are shifting Born translated novels include passages that appear to be written in different tongues narrators who speak to foreign audiences and other visual and formal techniques that treat translation as a medium rather than as an afterthought These strategies challenge the global dominance of English complicate native readership and protect creative works against misinterpretation as they circulate They have also given rise to a new form of writing that confounds traditional models of literary history and political community Born Translated builds a much needed framework for understanding translation's effect on fictional works as well as digital art avant garde magazines literary anthologies and visual media Artists and novelists discussed include J M Coetzee Junot Diaz Jonathan Safran Foer Mohsin Hamid Kazuo Ishiguro Jamaica Kincaid Ben Lerner China Miéville David Mitchell Walter Mosley Caryl Phillips Adam Thirlwell Amy Waldman and Young-hae Chang Heavy Industries The book understands that contemporary literature begins at once in many places engaging in a new type of social embeddedness and political solidarity It recasts literary history as a series of convergences and departures and by elevating the status of born translated works redefines common conceptions of author reader and nation

Cosmopolitan Desires Mariano Siskind, 2014-04-30 Mariano Siskind's groundbreaking debut book redefines the scope of world literature particularly regarding the place of Latin America in its imaginaries and mappings In Siskind's formulation world literature is a modernizing discursive strategy a way in which cultures negotiate their aspirations to participate in global networks of cultural exchange and an original tool to reorganize literary history Working with novels poems essays travel narratives and historical documents Siskind reads the way Latin American literary modernity was produced as a global relation from the rise of planetary novels in the 1870s and the cosmopolitan imaginaries of modernism at the turn of the twentieth century to the global spread of magical realism With its unusual breadth of reference and firm but unobtrusive grounding in philosophy literary theory and psychoanalysis *Cosmopolitan Desires* will have a major impact in the fields of Latin American studies and comparative literature

The Juggler of Notre Dame and the Medievalizing of Modernity Jan M. Ziolkowski, 2018-12-12 This ambitious and vivid study in six volumes explores the journey of a single electrifying story from its first incarnation in a medieval French poem through its prolific rebirth in the nineteenth and twentieth centuries The Juggler of Notre Dame tells how an entertainer abandons the world to join a monastery but is suspected of blasphemy after dancing his devotion before a statue of the Madonna in the crypt he is saved when the statue delighted by his skill miraculously comes to life Jan Ziolkowski tracks the

poem from its medieval roots to its rediscovery in late nineteenth century Paris before its translation into English in Britain and the United States The visual influence of the tale on Gothic revivalism and vice versa in America is carefully documented with lavish and inventive illustrations and Ziolkowski concludes with an examination of the explosion of interest in The Juggler of Notre Dame in the twentieth century and its place in mass culture today In this concluding volume Ziolkowski explores the popularity of The Juggler of Notre Dame from the 1930s through the Second World War especially in the Allied Resistance Its popularity in the United States was subsequently maintained by figures as diverse as Tony Curtis and W H Auden and although recently the story and medievalism have lost ground the future of both holds promise Presented with great clarity and simplicity Ziolkowski s work is accessible to the general reader while its many new discoveries will be valuable to academics in such fields and disciplines as medieval studies medievalism philology literary history art history folklore performance studies and reception studies
