

MARK SCHEME for the October/November 2008 question paper

0500 FIRST LANGUAGE ENGLISH

0500/02

Paper 2 (Reading Passage – Extended),
maximum raw mark 50

This mark scheme is published as an aid to teachers and candidates, to indicate the requirements of the examination. It shows the basis on which Examiners were instructed to award marks. It does not indicate the details of the discussions that took place at an Examiners' meeting before marking began.

All Examiners are instructed that alternative correct answers and unexpected approaches in candidates' scripts must be given marks that fairly reflect the relevant knowledge and skills demonstrated.

Mark schemes must be read in conjunction with the question papers and the report on the examination.

- CIE will not enter into discussions or correspondence in connection with these mark schemes.

CIE is publishing the mark schemes for the October/November 2008 question papers for most IGCSE, GCE Advanced Level and Advanced Subsidiary Level syllabuses and some Ordinary Level syllabuses.

International Business Law Mark Fenwick,Stefan Wrzka,2018-07-12 This book provides an accessible introduction to selected new issues in transnational law and connects them to existing theoretical debates on transnational business regulation More specifically i it introduces the argument about the evolving character of contemporary international business regulation ii it provides an overview of some of the main fields of law that are currently important for firms that operate across borders and iii it sets out an interpretive framework for making sense of disparate developments occurring across a number of jurisdictions among which are the form of regulation and style of enforcement issues of legal certainty and behavioural aspects of regulation The selected topics are indicative of some key issues confronting businesses looking to operate across national borders as well as policy makers seeking to introduce and enforce meaningful regulatory standards in an increasingly global society Topics include consumer law product liability warranty law and obsolescence collective redress alternative dispute resolution corporate wrongdoing corporate governance and e commerce This timely work offers a novel perspective on transnational business law and examines a range of legal issues that preoccupy companies operating transnationally This book is intended not only for law students looking for an introduction overview or commentary on the contemporary state of international business law but also for anyone looking for an introduction to the regulation of business in a global inter connected economy

Geography, Institutions and Regional Economic Performance Riccardo Crescenzi,Marco Percoco,2012-12-13 The book aims to present traditional features of regional science as geographical concepts and institutions as well as relatively new topics such as innovation and agglomeration economies In particular it demonstrates that contrary to what has been argued by recent economics literature both geography and institutions or culture are relevant for local development In fact these phenomena along with the movement of goods and workers are among the main reasons for persisting development differentials These intriguing relationships are at the heart of the analysis presented in this book and form the conceptual basis for a promising institutional approach to economic geography

Europe and Global Security Bastian Giegerich,2017-10-03 In the twenty first century the European Union is confronted by myriad security problems that demand concerted action and cooperation As a negotiating power it seeks to persuade Iran to forswear a nuclear weapons programme As a crisis manager it seeks to contribute to global peace and stability through civilian and military operations Closer to home it is wrestling with questions about membership enlargement large scale migration and terrorist threats to the security of its populations and infrastructure European governments already under financial strain from ageing workforces and welfare systems face ever more difficult choices about budget cuts in security and defence after the near collapse of the global banking system Will it be possible to enhance cooperation between member

states How can the EU complete its transition from a security actor with great potential to a player that credibly aligns available policy instruments and resources These and other issues about the very nature and identity of the Union are explored in this Adelphi From the need to establish its hard power credentials overcome its reluctance to demonstrate them against non compliant states and leverage its relationships with other great powers to attempts to break its dependence on Russian energy it is clear the EU has its work cut out But by affirming its commitment to multilateralism and defining a careful balance between closer cooperation and the national security concerns of EU member states this book suggests the European Union can build on its status as a global security power in the making

Parliamentary Papers Great Britain. Parliament. House of Commons, 1923 [Aiming for Global Accounting Standards](#)
Kees Camfferman, Stephen A. Zeff, 2015-03-26 The International Accounting Standards Board IASB and its International Financial Reporting Standards IFRSs have acquired a central position in the practice and regulation of financial reporting around the world As a unique instance of a private sector body setting standards with legal force in many jurisdictions the

IASB's rise to prominence has been accompanied by vivid political debates about its governance and accountability. Similarly, the IASB's often innovative attempts to change the face of financial reporting have made it the centre of numerous controversies. This book traces the history of the IASB from its foundation as successor to the International Accounting Standards Committee (IASC) and discusses its operation, changing membership and leadership, the development of its standards and their reception in jurisdictions around the world. The book gives particular attention to the IASB's relationships with the European Union, the United States and Japan as well as to the impact of the financial crisis on the IASB's work. By its in-depth coverage of the history of the IASB, the book provides essential background information that will enrich the perspective of everyone who has to deal with IFRSs or the IASB at a technical or policy-making level. *Wall Street Scandals* Winston Overton, 2013-01-14. Read an Expose on the operational indiscretions at Stock Exchanges in the United States. A compelling account of shady business practices and historical events as it affects the economy and the small investors on Wall Street. Be informed about executives of mega corporations, Banks and Mortgage Companies that inflate their egos with greed and illicit trading. Susan Shapiro in her writing advises: People who have too little faith in their potential or business acumen to attempt a business venture on their own, turn their money over to complete strangers to do that very thing. Shapiro Wayward Capitalists 1984. 1. Handbook of Research on Promotional Strategies and Consumer Influence in the Service Sector Panwar, Upendra Singh, Kumar, Raj, Ray, Nilanjan, 2016-04-11. Economic growth is directly impacted by a multitude of different industries. In recent years, the service industry has emerged as a significant contributor to the global economy.
