

Perkins MARINE POWER

4.236(M)

This 85 horsepower 4-cylinder diesel gives you reliable, durable and safe performance with compact size and low weight.

A rotary distributor-type fuel-injection system provides even fuel feed for smooth performance. An automatic advance and retard mechanism ensures fast starts and quick acceleration throughout the speed range. And the Perkins "H" pre-combustion system means clean burning, top fuel economy. Perkins diesels are designed for smooth, vibration-free running. And are designed for dependability with features like a closed freshwater cooling system to minimize corrosion.

The 4.236(M) is an auxiliary or main propulsion engine that provides plenty of clean, economical power when you need it, and doesn't get in your way when you don't.
