field Image and Video Retrieval Wee-Kheng Leow, Michael S. Lew, Tat-Seng Chua, Wei-Ying Ma, Lekha Chaisorn, Erwin M. Bakker, 2007-05-22 It was our great pleasure to host the 4th International Conference on Image and Video Retrieval CIVR at the National University of Singapore on 20-22 July 2005. CIVR aims to provide an international forum for the discussion of research challenges and exchange of ideas among researchers and practitioners in image/video retrieval technologies. It addresses innovative research in the broad field of image and video retrieval. A unique feature of this conference is the high level of participation by researchers from both academia and industry. Another unique feature of CIVR this year was in its format: it offered both the traditional oral presentation sessions as well as the short presentation cum poster sessions. The latter provided an informal alternative forum for animated discussions and exchanges of ideas among the participants. We are pleased to note that interest in CIVR has grown over the years. The number of submissions has steadily increased from 82 in 2002 to 119 in 2003 and 125 in 2004. This year we received 128 submissions from the international communities with 81 (63%) from Asia and Australia, 25 (19.5%) from Europe and 22 (17.2%) from North America. After a rigorous review process, 20 papers were accepted for oral presentations and 42 papers were accepted for poster presentations. In addition to the accepted submitted papers, the program also included 4 invited papers: 1 keynote industrial paper and 4 invited industrial papers. Altogether we offered a diverse and interesting program addressing the current interests and future trends in this area.

The Final FRCA Constructed Response Questions Elizabeth Combeer, Mitul Patel, 2023-12-28 This up-to-date study guide for the Final FRCA CRQ comprises questions based on every topic examined in the Royal College of Anaesthetists RCoA Final written exam from the past 12 years. It therefore covers the areas of the syllabus that are key to exam success, offering factual learning and the opportunity to practise CRQ style questions with chapters that reflect the RCoA syllabus format to help organise learning. The inclusion of diagrams and additional commentary ensures that this book will help candidates to learn rather than just providing a list of suggested model answers. Advice is offered about revision approaches, best sources of learning for the examination and guidance on structuring answers which will support exam success in all parts of the Final FRCA. This resource will save hours of work for anaesthetists preparing for the Final FRCA.
