

Lesson 1: Introduction to the Cold War

1. Why do we use the term Cold War to refer to this conflict between the USA and the USSR? They never actually fought - not "hot"; instead an "iron curtain" descended to keep the two sides suspicious of each other due to their differing ideologies.
2. Why was Germany a source of conflict that contributed to the Cold War? Both former allies wanted to control that strategic area - mostly to create a buffer zone to keep themselves away from the opposing superpower's sphere of influence, the division created friction.
3. What is a sphere of influence, and how was Europe divided? It's an area that is under the control of another nation-state, whether that be direct control, or other influences such as economic, political or social. Europe was divided with the East in the Soviet sphere and the west in the American sphere.
4. What is the Truman Doctrine and Marshall Plan? Programs intended to stop the spread of communism through economic means.
5. Why did the Cold War have such an impact on society? Baby boomers grew up in this atmosphere of mistrust and started to question authority - this led to dramatic changes with increasing individualist attitudes towards human rights.
6. Rosenbergs? A couple executed in 1953 as spies for the Soviet Union.

Lesson 2: Expansionism and Containment

1. How is the conflict over Berlin an example of expansionism? Both the Soviets and Americans wanted to establish a sphere of influence that would support their ideological viewpoints. When Stalin tried to block access to Berlin, or when the Americans created West Germany and encouraged East Germans to migrate, that is expansionism.
2. How is the conflict over Berlin an example of containment? Both sides wanted to prevent the other from expanding their influence, for example when the East German government built the wall around West Berlin, or when the Americans used the airlift to demonstrate to Stalin that they would not back down to him.

Lesson 3: Proxy Wars

1. What is a proxy war? When two powerful nations use a conflict in another area as an excuse to express their tensions. A historical example would be when the British and French would fight over the colonies as a way to hurt each other back in Europe.
2. How does the Korean War fit the definition of a proxy war? The US got UN support to stop the spread of communism after North Korea invaded the south. While the USSR didn't get directly involved, they supplied weapons to the North Koreans and later the Chinese.
