Records Management for Museums and Galleries Charlotte Brunskill,Sarah Demb,2012-04-27 The systematic management of records is an important activity for information businesses such as museums and galleries but is not always recognized as a core function Record keeping activities are often concentrated on small groups of records and staff charged with managing them may have limited experience in the field *Records Management for Museums and Galleries* offers a comprehensive overview of records management work within the heritage sector and draws on over a decade of experience in applying fundamental principles and practices to the specific circumstances of museums It introduces readers to the institutional culture functions and records common to museums and examines the legislative and regulatory environments affecting record keeping practices The book is comprised of eight chapters including a history of records keeping in the UK museum and gallery sector the basics of records management making a business case for records management requirements of legislation for records management how to conduct a records survey strategy and action planning how to develop a file plan retention schedule and records management programme and a guide to useful additional resources Gives practical and tested solutions to real world issues Fills a gap in the literature as a handbook in this important sector Provides an overview of the sector as a whole Everyday Editing Jeff Anderson,2007 Editing is often seen as one item on a list of steps in the writing process usually put somewhere near the end and often completely crowded out of writer s workshop Too many times daily editing lessons happen in a vacuum with no relationship to what students are writing In *Everyday Editing* Jeff Anderson asks teachers to reflect on what sort of message this approach sends to students Does it tell them that editing and revision

are meaningful parts of the writing process or just a hunt for errors with a 50/50 chance of getting it right comma or no comma. Instead of rehearsing errors and drilling students on what's wrong with a sentence, Jeff invites students to look carefully at their writing along with mentor texts and to think about how punctuation, grammar, and style can be best used to hone and communicate meaning. Written in Jeff's characteristically witty style, this refreshing and practical guide offers an overview of his approach to editing within the writing workshop as well as ten detailed sets of lessons covering everything from apostrophes to serial commas. These lessons can be used throughout the year to replace Daily Oral Language or error-based editing strategies with a more effective method for improving student writing.

Chicago's Block Clubs Amanda I. Seligman, 2016-10-04

What do you do if your alley is strewn with garbage after the sanitation truck comes through? Or if you're tired of the rowdy teenagers next door keeping you up all night? Is there a vacant lot on your block accumulating weeds, needles, and litter? For a century, Chicagoans have joined block clubs to address problems like these that make daily life in the city a nuisance. When neighbors work together in block clubs, playgrounds get built, local crime is monitored, streets are cleaned up, and every summer is marked by the festivities of day-long block parties. In *Chicago's Block Clubs*, Amanda I. Seligman uncovers the history of the block club in Chicago from its origins in the Urban League in the early 1900s through to the Chicago Police Department's twenty-first-century community policing program. Recognizing that many neighborhood problems are too big for one resident to handle but too small for the city to keep up with, city residents have for more than a century created clubs to establish and maintain their neighborhood's particular social dynamics, quality of life, and appearance. Omnipresent yet evanescent, block clubs are sometimes the major outlets for community organizing in the city, especially in neighborhoods otherwise lacking in political strength and clout. Drawing on the stories of hundreds of these groups from across the city, Seligman vividly illustrates what neighbors can and cannot accomplish when they work together.
