Seventh Day Adventist Second Quarterly 2014

Jacob Maentz, Nicola Sebastian

Seventh Day Adventist Second Quarterly 2014:

Seventh-Day Adventism in Africa Gabriel Masfa, 2023-06-16 This book examines the complex history of Adventism in Africa situating it within the context of African traditions and culture From a small movement with origins in the United States the Seventh day Adventist Church has grown worldwide It is one of several Christian denominations present in Africa and yet the history of Seventh day Adventism in the global South has been largely unexplored by scholars The book highlights the discrepancies between western traditions exhibited in the missionary enterprise and African religious systems It also explores the intricate relation between colonialism and African Adventism in line with established studies in African Christianity It will be of interest to scholars of religion and theology particularly church history and mission studies as well as African studies

Seventh-day Adventist Health Reform: A Crucible of Identity Tensions Richard B.

Ferret, 2023-07-20 The Seventh day Adventist church formally organized in America in 1863 is today one of the fastest growing Protestant movements in the world and defines itself as a prophetic remnant raised up and commissioned by God to teach and preach a final message of warning to the world before the imminent return of Christ From its beginnings however a sense of failure was built into the success of the fledgling movement In order to preserve the message the imminent return of Christ Adventists had to erect institutions based on continuity and permanence A dilemma emerged medical institutions built to be conducive for separation from the world faced a this worldly reality filled with requirements from various state entities registration approval and so forth Thus Adventist medical institutions confronted constant challenges to their denominational and theological uniqueness The emergence of this dilemma between aspirations of separateness and this worldly reality was especially evident in the battle for Adventism's sectarian identity ethos and future at the turn of the twentieth century between Ellen G White a cofounder of the movement and Dr John H Kellogg an Adventist administrator and surgeon who sought to desectarianize the movement

Media Dictatorship Cedrick Ngalande, 2022-07-18 *Media Dictatorship How Schools and Educators Can Defend Freedom of Speech* outlines how the American media amasses enormous power and uses it to control every aspect of the people's lives including schools elections science and freedom of thought Even religious institutions supposedly answerable to God only are now being influenced and controlled by media This book discusses the devastating consequences of such control on democracy and our civilization and then offers suggestions on what can be done to identify media propaganda and defend freedom of speech The school system has always been the first line of defense for patriotism and democracy It is important for teachers to understand the consequences of a powerful media that does not tolerate diversity of thought This book will encourage teachers to cultivate independence of thought among students School administrators too have a responsibility to ensure that school campuses are sanctuaries of freedom of thought where leaders of tomorrow are taught to be tolerant of opposing views In the larger public outside the school campus *Media Dictatorship* will spur a robust debate about the kind of media that can help nurture our democracy and

civilization **Report of the Federal Security Agency** United States. Office of Education,1899 Women's Lives around the World Susan M. Shaw,Nancy Staton Barbour,Patti Duncan Ph.D.,Kryn Freehling-Burton Ph.D.,Jane Nichols,2018-01-04

Providing an in depth look at the lives of women and girls in approximately 150 countries this multivolume reference set offers readers transnational and postcolonial analysis of the many issues that are critical to the success of women and girls For millennia women around the world have shouldered the responsibility of caring for their families But in recent decades women have emerged as a major part of the global workforce balancing careers and family life How did this change happen And how are societies in developing countries responding and adapting to women s newer roles in society This four volume encyclopedia examines the lives of women around the world with coverage that includes the education of girls and teens the key roles women play in their families careers religions and cultures how issues for women intersect with colonialism transnationalism feminism and established norms of power and control Organized geographically each volume presents detailed entries about the lives of women in particular countries Additionally each volume offers sidebars that spotlight topics related to women and girls in specific regions or focus on individual women s lives and contributions Primary source documents include sections of countries constitutions that are relevant to women and girls United Nations resolutions and national resolutions regarding women and girls and religious statements and proclamations about women and girls The organization of the set enables readers to take an in depth look at individual countries as well as to make comparisons across countries

Homelands Jacob Maentz,Nicola Sebastian ,2022-10-20 A story about the land is a story of its people Enfolded in the varied landscapes of the Philippine archipelago are communities that have remained rooted to place against great and unrelenting adversity those whom we call Indigenous From 2011 to 2020 Jacob Maentz paid visits to these communities to listen and learn from within that is from the people who have called these lands home since time immemorial What unfolds in Homelands is the photographic narrative of Jacob Maentz s close and continuing collaboration with various Indigenous communities and groups who have been historically marginalized in the Philippines Having lived in the archipelago since 2003 Maentz is ever mindful of the trust placed in him as honored guest as well as the power of his position as an outsider Needless to say the stories and knowledge that these communities have chosen to share with Maentz have indelibly shaped his own journey of unlearning inviting him to deeply reimagine the intimate intricate and inextricable relationships between place and people In a symposium of dialogues and essays Homelands further reflects on Indigeneity as cultural identity as rallying banner and as multitudinous question The text explores even as it introduces the diverse concerns of Indigenous communities the importance of solidarity in the clash between self interest and shared interests the submerged history of

political resistance alternative education and Traditional Knowledge systems food sovereignty and the successes and challenges of reclaiming land recognition after centuries of colonization and modern development aggression Finally Homelands stands in support of Indigenous peoples as the environmental frontliners of the world holding the line against irreversible ecological devastation With his lens and his presence Maentz listens to and holds space for those who have never left and those who continue to fight to live

Reclaiming Human Rights in a Changing World Order Christopher Sabatini, 2022-10-07 Human rights and the international institutions that strive to protect them are under increasing attack from powerful actors on the global stage from recent political trends even within established democracies and from new technologies Together these threats have undermined what had been a fragile international consensus as recently as two decades ago about the importance of concerted international action to protect human rights and punish those who abuse them China Russia and other nondemocratic regimes have become increasingly bold in acting as if agreed upon international human rights standards no longer exist or at least do not apply to them More broadly domestic political movements based on nationalism religion and populism are challenging human rights norms on nearly every continent And new technologies including autonomous weapons systems and relentless digital surveillance have given national leaders new ways to control or even abuse their citizens with impunity This book examines these new challenges to international and regional human rights in Africa Europe Latin America and the Middle East It is the result of a year of workshops with human rights activists and young leaders from around the world with chapters written by a diverse group of leading scholars Beyond describing the challenges to human rights the book offers targeted practical recommendations for national and multilateral policymakers activists and scholars for concrete actions to protect human rights as well as improve public understanding of why doing so is essential Reclaiming Human Rights in a Changing World Order will interest scholars of international relations and human rights law domestic and international activists involved in human rights indeed anyone wanting to understand the implications for the liberal international order of the new geopolitical competition modern technology and political and social movements
