*Sex in Imagined Spaces* Caitriona Dhuill, 2017-07-05 From Thomas More onwards writers of utopias have constructed alternative models of society as a way of commenting critically on existing social orders In the utopian alternative the sex gender system of the contemporary society may be either reproduced or radically re organised Reading utopian writing as a dialogue between reality and possibility this study examines the relationship between historical sex gender systems and those envisioned by utopian texts Surveying a broad range of utopian writing from the nineteenth and twentieth centuries including Huxley Zamyatin Wedekind Hauptmann and Charlotte Perkins Gilman this book reveals the variety and complexity of approaches to re arranging gender and locates these re arrangements within contemporary debates on sex and reproduction masculinity and femininity desire taboo and family structure These issues occupy a position of central importance in the dialogue between utopian imagination and anti utopian thought which culminates in the great dystopias of the twentieth century and the postmodern re invention of utopia

**Enlightenment Contested** Jonathan I. Israel, 2006-10-12 Jonathan Israel presents the first major reassessment of the Western Enlightenment for a generation Continuing the story he began in the best selling Radical Enlightenment and now focusing his attention on the first half of the eighteenth century he returns to the original sources to offer a groundbreaking new perspective on the nature and development of the most important currents in modern thought Israel traces many of the core principles of Western

modernity to their roots in the social political and philosophical ferment of this period the primacy of reason democracy racial equality feminism religious toleration sexual emancipation and freedom of expression He emphasizes the dual character of the Enlightenment and the bitter struggle between on the one hand a generally dominant anti democratic mainstream supporting the monarchy aristocracy and ecclesiastical authority and on the other a largely repressed democratic republican and materialist radical fringe He also contends that the supposedly separate French British German Dutch and Italian enlightenments interacted to such a degree that their study in isolation gives a hopelessly distorted picture A work of dazzling and highly accessible scholarship Enlightenment Contested will be the definitive reference point for historians philosophers and anyone engaged with this fascinating period of human development Libertinage et utopies sous le règne de Louis XIV Lise Leibacher-Ouvrard,1989 **The Moral Sex** Lieselotte Steinbrügge,1995 How was the nature of women redefined and debated during the French Enlightenment Instead of treating the Enlightenment in the usual manner as a challenge to orthodox ideas and social conventions Lieselotte Steinbrugge interprets it as a deviation from a position staked out in the seventeenth century namely the mind has no sex **Discours et politiques de l'identité** Philippe Sabot,2022-04-20 Foucault n aimait pas les logiques de l'identité celles ci t moignent de l'assignation de nos discours aux figures de l'autorité ou de la vérité mais cette assignation pousse aussi sa prise au del de nos discours jusque dans nos vies alors vous devez cliquer leur identité s identifier des formes de vie qui sont aussi des normes **Simone de Beauvoir's The Second Sex** Ruth Evans,2024-06-04 Acknowledged by many feminists as the single most important theoretical work of the twentieth century Simone de Beauvoir's The Second Sex 1949 nevertheless occupies an anomalous place in the feminist canon Yet it has had an undeniable impact not only on the development of critiques of sexual politics but on twentieth century western thinking about the concept of woman in general This collection of six new essays by scholars from the disciplines of French English literature history cultural criticism feminist theory and philosophy makes a valuable contribution to the task of re-reading and reassessing this enormously influential text for a new generation of feminist readers and also for cultural theorists for whom the question of the feminine is at the centre of key debates in philosophy and postmodernity The contributors provide a significantly new rethinking of the place of The Second Sex in cultural history and of women and representation the role of fictions and the problem of ethical agency in the work of the leading intellectual woman of this age
