Term	Definition	Example
Appeal to Ignorance	Uses lack of evidence (for or against) as the basis of the argument.	If something can't be disproven, it must be true
Hasty Generalization	occurs when a conclusion is drawn from a sample that is too small or selective to represent the subject accurately.	My husband grew up in a bad neighborhood where there was a lot of drug dealing and stealing. Since he is from this neighborhood, he is looked at as a thug.
Post Hoc Ergo Propter Hoc	Assuming that because B follows A, A must have caused B.	Every time I watch the Dallas Cowboys they lose so I stop watching the games on TV.
Either/Or	An either/or fallacy ignores the possibility that opposing assertions could both be true, that there might be some overlap between the two options, or that other options could be true.	People may think that since I drive a luxury car I make a lot of money but in actuality, I do not make a lot of money.
Composition	Putting two or more good things together does not mean they will be good together	Each brick in the building weighs less than 1 pound, therefore the building weighs less than 1 pound.
