The OIC, the UN, and Counter-Terrorism Law-Making Katja Samuel, 2014-07-18 The increasingly transnational nature of terrorist activities compels the international community to strengthen the legal framework in which counter terrorism activities should occur at every level including that of intergovernmental organizations This unique timely and carefully researched monograph examines one such important yet generally under researched and poorly understood intergovernmental organization the Organization of Islamic Cooperation OIC formerly the Organization of the Islamic Conference In particular it analyses in depth its institutional counter terrorism law making practice and the relationship between resultant OIC law and comparable UN norms in furtherance of UN Global Counter Terrorism Strategy goals Furthermore it explores two common mis assumptions regarding the OIC namely whether its internal institutional weaknesses mean that its law making practice is inconsequential at the intergovernmental level and whether its self declared Islamic objectives and nature are irrelevant to its institutional practice or are instead reflected within OIC law Where significant normative tensions are discerned between OIC law and UN law the monograph explores not only whether these may be explicable at least in part by the OIC s Islamic nature and objectives but also whether their corresponding institutional legal orders are conflicting or cooperative in nature and the resultant implications of these findings for international counter terrorism law and policy making This monograph is expected to appeal especially to national and intergovernmental counter terrorism practitioners and policy makers as well as to scholars concerned with the interaction between international and Islamic law norms From the Foreword by Professor Ben Saul The University of Sydney Dr Samuels book must be commended as an original and insightful contribution to international legal scholarship on the OIC Islamic law international law and counter terrorism It fills significant gaps in legal knowledge about the vast investment of international and regional effort that has gone into the global counter terrorism enterprise over many decades and which accelerated markedly after 9 11 The scope of the book is ambitious its subject matter is complex and its sources are many and diverse Dr Samuel has deployed an appropriate theoretical and empirical methodology harnessed an intricate knowledge of the field and brought a balanced judgement to bear to bring these issues to life

Central Asia Pauline Jones, 2017-07-20 During the 1990s there was a general consensus that Central Asia was witnessing an Islamic revival after independence and that this occurrence would follow similar events throughout the Islamic world in the prior two decades which had negative effects on both social and political development Twenty years later we are still struggling to fully understand the transformation of Islam in a region that's evolved through a complex and dynamic process involving diversity in belief and practice religious authority and political intervention This volume seeks to shed light on these crucial questions by bringing together an international group of scholars to offer a fresh perspective on Central Asian states

and societies The chapters provide analysis through four distinct categories the everyday practice of Islam across local communities state policies toward Islam focusing on attempts to regulate public and private practice through cultural legal and political institutions and how these differ from Soviet policies how religious actors influence communities in the practice of Islam state policies towards the religion and subsequent communal responses to state regulations and how knowledge of and interaction with the larger Islamic world is shaping Central Asia s current Islamic revival and state responses The contributors a multidisciplinary and international group of leading scholars develop fresh insights that both corroborate and contradict findings from previous research while also highlighting the problem of making any generalizations about Islam in individual states or the region As such this volume provides new and impactful analysis for scholars students and policy makers concerned with Central Asia
