Eliminate Outdated Requirements for City Notices

- The city is required to publish public notices in the official city newspaper with a daily circulation over 25,000, but there is no longer any newspaper that fits the bill.
- This measure would get rid of that old requirement and give City Council the power to come up with a new, more effective way to publish public notices (e.g., online, multiple smaller news outlets).

S

YES!

Let the City Spend More of the Funds from Already-Approved Taxes

- Increases the city's allowable limit of how much tax revenue it can spend, so that it can continue to spend money towards things that voters passed taxes to pay for.

13

YES!

Fix and Modernize K-12 School and Higher Ed Buildings**

- \$15 billion in bonds for school and college facilities in California, including \$9 billion for preschool and K-12 schools
- Improve health and safety conditions in school buildings, including earthquake/fire safety and removing lead from water
- Increase affordable student housing

** Ballot measures are rarely perfect; we still believe that all students deserve to learn in a safe environment.

Distinguished Professor Law and by Courtesy Philosophy and Political Science Christopher Kutz,2025-08-27 In Publics in Action Christopher Kutz looks at how people should and do come together to create their shared institutions and the lessons we can learn from one another He argues that a healthy dynamic public takes itself seriously as a subject of action not just the passive beneficiary of a state institution Kutz builds the book around an extended metaphor we should understand ourselves as a public that improvises listening to each other as we riff off shared standards and so creating something new responsive to the scene and the moment

Texas vs. California Kenneth P. Miller, 2020-07-14 *Texas and California are the leaders of Red and Blue America* As the nation has polarized its most populous and economically powerful states have taken charge of the opposing camps These states now advance sharply contrasting political and policy agendas and view themselves as competitors for control of the nation s future Kenneth P. Miller provides a detailed account of the rivalry s emergence present state and possible future First he explores why despite their many similarities the two states have become so deeply divided As he shows they experienced critical differences in their origins and in their later demographic economic cultural and political development Second he describes how Texas and California have constructed opposing comprehensive policy models one conservative the other progressive Miller highlights the states contrasting policies in five areas tax labor energy and environment poverty and social issues and also shows how Texas and California have led the red and blue state blocs in seeking to influence federal policy in these areas The book concludes by assessing two models strengths vulnerabilities and future prospects The rivalry between the two states will likely continue for the foreseeable future because California will surely stay blue and Texas will likely remain red The challenge for the two states and for the nation as a whole is to view the competition in a positive light and turn it to productive ends Exploring one of the primary rifts in American politics *Texas vs California* sheds light on virtually every aspect of the country s political system
