VW Polo Service and Repair Manual Robert Jex, 1998 **Marco Polo's China** Stephen G. Haw, 2006-11-22 Marco Polo's famous book about his journey to China written in 1298 continues to be a subject of considerable controversy. One recent work on the subject argues that Marco Polo never went to China at all and other scholars have pointed out apparent mistakes and important omissions in Marco's writings including his failure to mention the Great Wall and his apparently erroneous description of the course of the Yellow River. Haw re-examines Marco Polo's writings. The main arguments against his credibility have been negative concentrating on things that it is argued he should have seen and noted but did not. The most serious of these supposed omissions are generally said to be his failure to describe the Chinese writing system, tea foot binding and the Great Wall of China. Yet Haw argues that what he does mention is impressive and argues strongly for his veracity. This book clarifies Marco Polo's itineraries in China and proposes several new identifications of places mentioned. Relying extensively on original Chinese sources and supplemented by Haw's wide knowledge of China, Marco Polo's China presents a convincing argument and concludes that his work is an accurate, important and useful source from an extraordinary period of Chinese history.

Private and Public Lies Andrew J. Turner, K. O. Chong-Gossard, Frederik Juliaan Vervaeke, 2010 Graeco-Roman literary works, historiography and even the reporting of rumours were couched as if they came in response to an insatiable desire by ordinary citizens to know everything about the lives of their leaders and to hold them to account at some level for their abuse of constitutional powers for personal ends. Ancient writers were equally fascinated with how these same individuals used deceit as a powerful tool to disguise private and public reality. The chapters in this collection examine the themes of despotism and deceit from both historical and literary perspectives over a range of historical periods including classical Athens, the Hellenistic kingdoms, late republican and early imperial Rome, late antiquity and Byzantium.
