10. *Give only one answer; write in full and underline, then, the particular statement which correctly completes the statement.* (The words "one answer" imply that you should recognize the statement that correctly completes the statement, then, the word "one" is not intended to imply that you should give only one answer.)

This study was the product of a large, all-school, collaborative investigation to practically implement evidence-based practices designed to increase organizational capacity to act on the science of learning. We share what we discovered, including the challenges to practically implementing evidence-based practices, as well as the ways that the school community worked to overcome the challenges to success.
