with the most important myths of winegrowing or debated them with colleagues and that would be all of us It is also a great  
read for any wine consumer interested in looking at the man behind the curtain so to speak the myths promoted by wine  
writers tasting room staff sommeliers and other wine gatekeepers Wines Vines A meticulously researched volume that every  
serious sommelier should read if only to disagree The Somm Journal Wine is a traditional product with traditional  
explanations Oft romanticized Old World notions of how to create fine wine have been passed down through generations and  
continue to dominate popular discussions of wine quality However many of these beliefs predate science and remain isolated  
from advances in the understanding of how crops grow and fruit ripens Allegiance to them has frequently impeded open  
minded investigation into how grapevines interact with the environment thus limiting innovation in winegrowing In *Terroir*  
and *Other Myths of Winegrowing* Mark A Matthews applies a scientist s skepticism and scrutiny to examine widely held  
beliefs about viticulture Is terroir primarily a marketing ploy that obscures understanding of which environments really  
produce the best wine Is reducing yield an imperative for high quality grapes and wine What does it mean to have vines that  
are balanced or grapes that are physiologically mature Matthews explores and dissects these and other questions to debunk  
the myths of winegrowing that may be holding us back from achieving a higher wine quality      *Answer to Mr. Lucas'*
