Hawkins: The Hidden Determinants of Human Behavior** thomas francis, 2024-03-08 Power vs Force Power vs Force by David R Hawkins is a seminal work that delves into the nuances of human consciousness power dynamics and the transformative potential inherent in understanding

and leveraging the forces that shape human behavior and societal norms The book is grounded in the premise that there are distinct levels of consciousness accessible to humans and these levels can profoundly influence our interactions perceptions and the world at large The book introduces a hierarchy of consciousness proposing a scale that ranges from the lowest forms of consciousness characterized by negative emotions and destructive behaviors to the highest forms marked by positive emotions life affirming behaviors and enlightenment At the core of Hawkins s argument is the distinction between power and force Power is described as a constructive life affirming force associated with love peace and a deep understanding of the interconnectedness of all beings In contrast force is seen as destructive rooted in fear and ultimately ineffective in achieving lasting change or fulfillment Hawkins s research into the field of behavioral kinesiology provides the methodological backbone for his assertions

it greatly helps them Equally important is to show others that it is possible using one's own example of going through various challenges and life truths to expand one's strength This means that others can improve their lives ease situations etc using certain methods A year later when it was completed it helped me a lot in dealing with much more serious life obstacles It is written from personal experience as a way of struggle reflection life experience and collaboration with different mentors from various areas of life The book consists of three sections The first identifies obstacles to our personal development the second deals with overcoming them and the third is the place where we want to be for the well being of ourselves and those around us The journal complements the book providing practical examples self reflection introspection and space for you to answer what concerns you The text in the book not only provides solutions but also the mindset of overcoming challenges self improvement thinking working on oneself seeing things from different perspectives It gives guidelines on what to work on overcome where to focus and work what to pay attention to and the possibility of finding that strength The sources from which you find them are within you and it all comes down to merging within you By awakening strength within oneself each of us connects with our source whether it's God the Universe divine force energy nature or oneself Ebook is now only available online The printed version may come later

**Your power within** Blanca De la Rosa, 2024-10-14 I began writing this book after my husband of 51 years passed away hoping to find my purpose in this new chapter of my life Without my best friend by my side I sought guidance and clarity Through my writing and research I learned to be patient with myself and the process embracing each day as it comes Digging deep into my subconscious to uncover my purpose required time effort and patience I discovered that within each of us lies an untapped well of strength Whether it's in health career relationships or emotions our true power is ready to be harnessed By understanding the limits imposed upon us we can break free and create the world we dream of This book explores the soul's journey and the quest for purpose and inner strength emphasizing patience and gradual progress The essence of the soul's journey lies in accumulating and comprehending experiences Each action spoken word and emotion contributes to this path of learning growth and evolution It's a path of learning experiencing and evolving A soul journey is a route of spiritual and personal development that enables us to discover our passions connect with our inner selves and align with our greater purpose It's a journey to realizing our individual potential and reaching our destiny Throughout our journey we seek to find purpose and meaning beyond the material world At that point the concept of a soul journey becomes a reality

personality behaviors within that Energy A sample list of Ruling Energies includes Mistress Energy Righteous Anger Addiction and Despair This volume Ruling Energies identifies the energies and discusses Love and Fear based energies Love is the strongest power in the Universe and its opposing energy is Fear Whether you realize it or not every choice you make is based on whether you are choosing from a place of love or a place of fear When choices are made from a place of fear you will continue to attract that kind of energy to you For instance you decide not to take a vacation because you are worried about spending too much money on things you don't need You stay home but then the hot water heater goes out so you end up spending the money anyway It can be argued that you have the money for the repair because you stayed home but it can also be said that regardless of how you plan you never truly have control of the energy money you are blessed with you are merely a steward of that energy When you make choices out of fear that you won't have enough then you attract that energy lack to you and the Universe has no choice but to bless you with lack That doesn't mean that you had to take a vacation or lose the money You could have made the same choice out of love a vacation would be nice but I really love the idea of saving up for a new car I can see myself driving it and have already picked out the color and model I love putting money in my car fund and can't wait until next payday so I can make another deposit That choice is being made from a place of love and the Universe will help you realize your inner voices of abundance **15 min reading that might change your \*\*\*\*\*** Cristian J
