Randomized Control Trials in the Field of Development Florent Bédécarrats, Isabelle Guérin, François Roubaud, 2020-09-17 This is an open access title available under the terms of a CC BY NC ND 4 0 International licence It is free to read at Oxford Academic and offered as a free PDF download from OUP and selected open access locations In October 2019 Abhijit Banerjee Esther Duflo and Michael Kremer jointly won the 51st Sveriges Riksbank Prize in Economic Sciences in Memory of Alfred Nobel for their experimental approach to alleviating global poverty But what is the exact scope of their experimental method known as randomized control trials RCTs Which sorts of questions are RCTs able to address and which do they fail to answer The first of its kind Randomized Control Trials in the Field of Development A Critical Perspective provides answers to these questions explaining how RCTs work what they can achieve why they sometimes fail how they can be improved and why other methods are both useful and necessary Bringing together leading specialists in the field from a range of backgrounds and disciplines economics econometrics mathematics statistics political economy socioeconomics anthropology philosophy global health epidemiology and medicine it presents a full and coherent picture of the main strengths and weaknesses of RCTs in the field of development Looking beyond the epistemological political and ethical differences underlying many of the disagreements surrounding RCTs it explores the implementation of RCTs on the ground outside of their ideal theoretical conditions and reveals some unsuspected uses and effects their disruptive potential but also their political uses The contributions uncover the implicit worldview that many RCTs draw on and disseminate and probe the gap between the method's narrow scope and its success while also proposing improvements and alternatives Without disputing the contribution of RCTs to scientific knowledge Randomized Control Trials in the Field of Development warns against the potential dangers of their excessive use arguing that the best use for RCTs is not necessarily that which immediately springs to mind Written in plain language this book offers experts and laypeople alike a unique opportunity to come to an informed and reasoned judgement on RCTs and what they can bring to development

Neoliberalism 2.0: Regulating and Financing Globalizing Markets L. Nijs, 2016-01-26 In today's increasingly globalized environment many economic fundamentals need to be reconsidered in order to regain stability in the global marketplace One such consideration is the failing dynamics of the international tax infrastructure Neoliberalism 2 0 brings a 21st century assessment of the Pigovian taxes considering a completely new calibration of the international tax systems inspired by the historically developed Pigovian tax model The book considers the

impact neoliberalism had and will have on regulatory infrastructure democracy in an era of globalization and reduced legitimization of the national state The Pigovian model brings home the often forgotten relationship between taxation as a part of the regulatory sphere macro economics and the political philosophical context in which law and economics emerge The model also takes into account the phenomena of globalization and financialization and is tested using the financial sector as an example This book addresses the many challenges a Pigovian shift would imply for the sovereign and its national economies Neoliberalism 2.0 demonstrates the ability to design a paradigm changing alternative to the current tax infrastructure while taking into account a low economic growth environment of the future the implications of globalization and the changing relationship between citizens and their state

Consumer Involvement in Private EU Competition

Law Enforcement Maria Ioannidou, 2015-09-03 Despite the growing importance of consumer welfare in EU competition law debates there remains a significant disconnect between rhetoric and reality as consumers and their interests still play only an ancillary role in this area of law Consumer Involvement in Private EU Competition Law Enforcement is the first monograph to exclusively address this highly topical and much debated subject providing a timely and wide ranging examination of the need for more active consumer participation in competition law Written by an expert in the field it sets out a comprehensive framework of policy implications and arguments for greater involvement positioning the debate in the context of a broader EU law perspective It outlines pragmatic approaches to remedial and procedural measures that would enable consumer empowerment Finally the book identifies key institutional and political obstacles to the adoption of effective measures and suggests alternative routes to enhance the role of consumers in private competition law enforcement The book's innovative approach combining normative analysis and practical solutions make it invaluable for academics policy makers and practitioners in the field

Information Technologies and Economic Development in Latin America

Alberto Chong, Mónica Yáñez-Pagans, 2020-02-29 Information Technologies and Economic Development in Latin America provides a collection of rigorous empirical studies that contributes to a better understanding of the role and impact of old and new information technologies on Latin American economic development It provides evidence using randomized and quasi experimental designed studies for different information and communication technologies interventions In evaluating their development impact a critical concern has been to contribute to the little existing evidence In fact whereas many ICT projects in the developing world have been promoted by multilateral organizations bilateral aid agencies and nongovernmental organizations in recent years the extent to which these interventions and policies actually contribute to the development of the region is unclear The book provides evidence on what works and what does not

The 1.5 Billion People Question Harold Alderman, Ugo Gentilini, Ruslan Yemtsov, 2017-10-12 Most of the people in low and middle income countries covered by social protection receive assistance in the form of in kind food The origin of such support is rooted in countries historical pursuit of three interconnected objectives namely attaining self sufficiency in food managing domestic food prices

and providing income support to the poor This volume sheds light on the complex bumpy and non linear process of how some flagship food based social protection programs have evolved over time and how they currently work In particular it lays out the broad trends in reforms including a growing move from in kind modalities to cash transfers from universality to targeting and from agriculture to social protection Case studies from Egypt India Indonesia Mexico Sri Lanka and United States document the specific experiences of managing the process of reform and implementation including enhancing our understanding of the opportunities and challenges with different social protection transfer modalities **Research**

Srivastava,2021-09-05 This volume explores the emergence evolution and definition of the middle class in India As a class created as the interpreters between the colonial rulers and the millions whom they governed in the pre Independence era the Indian middle class has existed in congruence with the state occupying vital positions in state administration Since Independence this middle class underwent major sociological change as they live independent of the state which affected their social economic and political position reaping benefits of liberalisation and globalisation through education and employment An otherwise internally differentiated and heterogeneous group the new Indian middle class often unifies itself to shape socio political discourse that affects politics and policymaking from domestic to international affairs This volume analyses this class phenomenon through a close study of a new metropolitan middle class in India the software professionals emblematic of the new India It discusses this emerging class as a political category and their engagements with the state democracy political parties issues of gender basic necessities and social justice Further it discusses their social action and middle class activism for issues such as environment cleanliness and corruption particularly highlighting its presence in the private sector and electronic media A fresh perspective on India s political milieu this volume will be of interest to scholars and researchers of sociology modern Indian history political science economics and South Asia studies **Public Private**

Partnerships Robert M. Clark,Simon Hakim,2019-10-18 This book discusses Public Private Partnerships PPPs and their potential to protect and maintain critical infrastructure in a variety of global governmental settings Critical infrastructure is defined as essential services that underpin and support the backbone of a nation s economy security and health These services include the power used by homes and businesses drinking water transportation stores and shops and communications As governmental budgets dwindle the maintenance of critical infrastructure and the delivery of its related services are often strained PPPs have the potential to fill the void between government accounting and capital budgeting This volume provides a survey of PPPs in critical infrastructure combining theory and case studies to provide a comprehensive

view of possible applications Written by a diverse group of international experts the chapters detail PPPs across industries such as transportation social infrastructure healthcare emergency services and water across municipalities from the US to New Zealand to Hong Kong Chapters discuss objectives and legal requirements associated with PPPs the potential advantages and limitations of PPPs and provide guidance as to how to structure a successful PPP for infrastructure investment This book is of interest to researchers studying public administration public finance and infrastructure as well as practitioners and decision makers interested in instituting PPPs in their communities

EU Socio-Economic Governance since the Crisis Jonathan Zeitlin, Amy Verdun, 2018-12-07 This book is the first to be dedicated entirely to the European Semester a new framework for policy coordination across European Union EU member states The Semester represents a major advancement in EU governance Created in 2010 in the wake of the financial and sovereign debt crises and revamped in 2015 it was intended to provide a new socio economic governance architecture to coordinate national policies without transferring legal sovereignty to EU level The papers in this collection are written by authors who have already contributed to this literature and have conducted original research for their studies The book offers an empirical and theoretical assessment of the European Semester examining its implications along three critical axes running respectively between the economic and the social the supranational and the intergovernmental and the technocratic and democratic poles of EU governance The book concludes that the European Semester challenges established theoretical understandings of EU governance as it is a prime example of the complexity that supersedes simple polar oppositions The chapters were originally published in a special issue of the Journal of European Public Policy

Retail Depositor and Retail Investor Protection under EU Law Constantinos Tokatlides, 2017-02-10 Retail Depositor and Retail Investor Protection under EU Law offers an original perspective on EU financial law in the area of retail investor protection examining the status of protection awarded by EU law to retail depositors and retail investors in the event of financial institution failure The analysis of relevant EU law is on the basis of effectiveness and has been elaborated in two levels of comparison The first comparative approach examines relevant EU law both externally and internally externally vis vis relevant international initiatives and developments in the area of financial law as the latter affect the features and evolution of EU law and internally by examining relevant instruments of EU law with regard to each other as to their normative structure and content The second comparative approach also examines the status of retail depositors in relation to that of retail investors under EU law in the event of financial institution failure and the relevant legal consequences thereof

Handbook of the Sociology of Education in the 21st Century Barbara Schneider, 2018-10-10 This handbook unifies access and opportunity two key concepts of sociology of education throughout its 25 chapters It explores today's populations rarely noticed such as undocumented students first generation college students and LGBTQs and emphasizing the intersectionality of gender race ethnicity and social class Sociologists often center their work on the sources and consequences of inequality This handbook while

reviewing many of these explanations takes a different approach concentrating instead on what needs to be accomplished to reduce inequality A special section is devoted to new methodological work for studying social systems including network analyses and school and teacher effects Additionally the book explores the changing landscape of higher education institutions their respective populations and how labor market opportunities are enhanced or impeded by differing postsecondary education pathways Written by leading sociologists and rising stars in the field each of the chapters is embedded in theory but contemporary and futuristic in its implications This Handbook serves as a blueprint for identifying new work for sociologists of education and other scholars and policymakers trying to understand many of the problems of inequality in education and what is needed to address them *Research in the History of Economic Thought and Methodology* Luca Fiorito, Scott Scheall, Carlos Eduardo Suprinyak, 2020-02-19 Including chapters on British public debt in the 19th century French financial controversies in the mid 1800s and a thoughtful reflection on the USA's New Deal this volume is a global exploration of public finance history For researchers interested in the history of economics this is an essential read containing the most up to date research *Banking's Final Exam* Morris Goldstein, 2017-05-30 Spurred by the success of the first stress test of US banks toward the end of the global economic crisis in 2009 stress testing of large financial institutions has become the cornerstone of banking supervision worldwide The aim of the tests is to determine which banks are adequately capitalized under severe economic shocks and to order corrective measures for those that are vulnerable In Banking's Final Exam one of the world's leading experts on banking regulation concludes that the tests administered on both sides of the Atlantic suffer from fundamental weaknesses leading to a false sense of reassurance about the safety and soundness of the banking system Some weaknesses can be corrected within the existing bank capital regime but others will require bold reforms including higher minimum capital requirements for the largest and most systemically important banks The banking industry is likely to resist these reforms but this book explains why their objections do not hold water
