Grounds and Paths Geshe Kelsang Gyatso, 2000-01-01 These days there is great interest in the practice of Tantra and an urgent need for a comprehensive guide to its practice written by a fully qualified Tantric Master. Based on a completely pure lineage of instruction and practice that dates back to Buddha himself, *Tantric Grounds and Paths* meets this need by providing a definitive manual for Tantric practitioners. With remarkable clarity and authority, Geshe Kelsang presents a comprehensive guide to the four classes of Tantra, including an extensive explanation of the generation and completion stages of Highest Yoga Tantra. All the stages of the Tantric path to full enlightenment are described in breathtaking detail, making the publication of this book an event of major contemporary importance in the history of Buddhist literature. Contents: Illustrations, Acknowledgements, Introduction, The Lower Tantras, Highest Yoga Tantra, Generation Stage, Isolated Body, Isolated Speech and Isolated Mind, Illusory Body, Clear Light and Union, The Final Results, Dedication, Appendix I: The Condensed Meaning of the text, Appendix II: The Preliminary Practices, Great Liberation of the Mother, Great Liberation of the Father, An Explanation of the Practice, Glossary, Bibliography, Study Programmes, Index. *A Handbook for Training Strategy* Martyn Sloman, 2017-07-05 When the first edition of Martyn Sloman's Handbook appeared, it made an immediate impact on

the HRD community Its starting point was the idea that traditional approaches to training in the organization were no longer effective The Handbook introduced a new model and set out the practical implications The world of HRD has moved on and Martyn Sloman has now drastically revised the text to reflect the increased complexity of organizational life and the many recent developments in the field His aim remains the same to help readers to develop a framework in which training can be effectively managed and delivered In Part I of the text the author draws attention to the opportunities created for training by the current emphasis on competition through people In Part II he poses the question What should training managers be doing to ensure that training in their organization is as good as it can be Here he stresses the need to keep training aligned with business objectives and to encourage line managers to work alongside the human resource professionals The third and final Part considers the trainer as a strategic facilitator and examines the skills required Martyn Sloman writes as an experienced training manager and his book is concerned above all with implementation Thus the text is supported by questionnaires survey instruments and specimen documents With its combination of thought provoking argument and practical guidance the Handbook will continue to serve all those with an interest in organizational training
