Government Publications** ,1980 **Chemical News and Journal of Industrial Science** ,1909 **Gender Trouble Makers** Jennifer Rothchild,2007-05-07 International development efforts aimed at improving girls lives and education have been well intended somewhat effective but ultimately

short sighted and incomplete This is because international development efforts often operate under a reductive understanding of the term gender and how it influences the lives of girls and boys Gender is more commonly conceived by international efforts as characteristics which are ascribed to girls as norms for behaviour In particular the analysis in Gender Trouble Makers focuses on the social constructions of gender and the ways in which gender was reinforced and maintained through a case study in rural Nepal In developing countries like Nepal promoting access to and participation in existing formal education programme is clearly necessary but it is not in itself sufficient to transform gender power relations in the broader society When gender is properly addressed as a process then all stakeholders involved researchers governmental officials and community members can begin to understand and devise more effective ways to increase both girl and boy students enrollment participation and success in school **Chemical News and Journal of Physical Science** ,1909
