Inspirational Guide for the Implementation of PRME Principles for Responsible Management Education, 2017-09-08 Since the inception of the United Nations Global Compact sponsored initiative Principles for Responsible Management Education PRME in 2007 there has been increased debate over how to adapt management education to best meet the demands of the 21st century business environment While consensus has been reached by the majority of globally focused management education institutions that sustainability must be incorporated into management education curricula the relevant question is no longer _why_ management education should change but _how_ Although the PRME initiative is set to increase to 1 000 signatories by 2015 it is equally important for PRME to cultivate actively engaged participants Therefore the next step is for current participants to transition from a global learning community to an action community For this purpose the PRME Secretariat invited a small group of experts to coordinate an Inspirational Guide for the Implementation of PRME which was presented at the 3rd Global Forum for Responsible Management Education the official platform for management related Higher Education Institutions HEIs at both the Global Compact Rio 20 Corporate Sustainability Forum and the UN Conference on Sustainable Development Rio 20 in June 2012 in Rio de Janeiro The Guide answers the most frequently asked questions concerning the implementation of PRME by
