## **Perceptions Of Discourse The Revolution In Assumptions:**

*Perceptions of Discourse: The Revolution in Assumptions* Dorothy Naor, 2014-12-12 This book was ready to go except for the final editing nearly 14 years ago when suddenly other events entered my life that took all my energy and time Apparently no one else in the interim has touched on the subject Because I was loathe to let 15 or so years of research go to waste and because I think that the history might be interesting and perhaps also useful to others and also because I suddenly realized that I am now in my 80s and would not be around forever I have finally taken time off to publish As for my sources which extend from about the 16th century till the late 1980s I have decided against updating them Those included in these pages serve the purpose of this study which is about a revolution in assumptions about discourse that began in the USA in the 1920s and became the institution in the 1980s in schools universities and in our perceptions of discourse in general The tale in these pages also covers the more important consequences of the revolution      **Communication in the Jewish Diaspora**

Menahem Blondheim, Hananel Rosenberg, 2020-09-16 The Jewish diasporic experience stands out in its remarkable scope duration and cohesiveness Communication is the dynamic mechanism that negotiates the interplay of these factors hence this volume on Jewish Diasporic Communications The Jewish Diaspora is unique in another way too through most of their exilic experience Jews did not have a geographical center to which they could orient themselves The perspective guiding this volume is that the center of the Jewish Diaspora has been the communicative network linking its scattered communities in space and the media serving its continuity through historical time This Diasporic network has sustained a common flow of shared content between Jews and Jewish communities let alone the imagination of connectedness Thus Diaspora Jews as Jews and the People they comprise existed to invoke John Dewey in communication The studies in this volume spanning antiquity and modernity and crossing disciplinary boundaries provide together a broad ranging and in depth account of how a People can survive for millennia without a homeland but in communication      [A Revolution of Perception?](#) Ingrid

Gilcher-Holtey, 2014-08-01 The year 1968 marked the climax of protests that simultaneously captured most industrialized Western countries The protesters challenged the institutions of Western democracies confronting powerful established parties and groups with an opposing force and public presence that negated traditional structures of institutional authority and criticized the basic assumptions of the post war order Exploring the effects the protest movement of 1968 had on the political social and symbolic order of the societies they called into question this volume focuses on the consequences and echoes of 1968 from different perspectives including history sociology and linguistics      *The Revolutionary Rhetoric of*

**Tree of Liberty** Doris Lorraine Garraway, 2008 On January 1 1804 Jean Jacques Dessalines declared the independence of Haiti thus bringing to an end the only successful slave revolution in history and transforming the colony of Saint Domingue into the second independent state in the Western Hemisphere The historical significance of the Haitian Revolution has been addressed by numerous scholars but the importance of the Revolution as a cultural and political phenomenon has only begun to be explored Although the path breaking work of Michel Rolph Trouillot and Sibylle Fischer has illustrated the profound silences surrounding the Haitian Revolution in Western historiography and in Caribbean cultural production in the aftermath of the Revolution contributors to this volume argue that while suppressed and disavowed in some quarters the Haitian Revolution nonetheless had an enduring cultural and political impact particularly on peoples and communities that have been marginalized in the historical record and absent from the discourses of Western historiography *Tree of Liberty* interrogates the literary historical and political discourses that the Revolution produced and inspired across time and space and across national and linguistic boundaries In so doing it seeks to initiate a far reaching discussion of the Revolution as a cultural and political phenomenon that shaped ideas about the Enlightenment freedom postcolonialism and race in the modern Atlantic world Contributors A James Arnold University of Virginia Chris Bongie Queen's University Paul Breslin Northwestern University Ada Ferrer New York University Doris L Garraway Northwestern

and provided communities with a framework with which to interpret an unstable world Lindsay Porter explores the role of rumour as a phenomenon in itself investigating the way in which the informal authority of the word on the street was subject to a range of historical and contemporary prejudices Drawing its conclusions from police reports and other archival sources this study examines the potential of rumour both to unite and to divide communities as rumour and hearsay began to play an important role in defining and judging personal commitment to the Revolution and what it meant to be a citizen
