Health Technology Literacy: A Transdisciplinary Framework for Consumer-Oriented Practice Maryalice Jordan-Marsh,2010-08-31 **Mathematical Modeling in Physical Sciences** Dimitrios Vlachos,2024-05-23 This volume gathers selected papers presented at the ICMSQUARE 2023 12th International Conference on Mathematical Modeling in Physical Sciences held in Belgrade Serbia from August 28 31 2023 This proceedings offers a compilation of cutting edge research which aims to advance the knowledge and development of high quality research in mathematical fields related to physics chemistry biology medicine economics environmental sciences and more Annually held since 2012 the ICMSQUARE conference serves as a platform for the exchange of ideas and discussions on the latest technological trends in these fields This book is an invaluable resource for researchers academicians and professionals in these areas seeking to stay up to date with the latest developments in mathematical modeling **Nuclear Security Summits** Amandeep S. Gill,2019-10-19 This book describes the four Nuclear Security Summits held over 2010 2016 at the initiative of U S President Barack Obama The author draws upon his unique vantage point as a participant in the Summits exclusive interviews with practitioners and access to primary documents to write an engaging history of the NSS and of nuclear security in general The story of the NSS is also in part the story of multilateral nuclear forums which have sprung up regularly since the dawn of the nuclear age to address perceived nuclear dangers The success of these Summits in addressing the threat of nuclear terrorism holds important lessons for the design and work of nuclear forums today and into the future The author presents a new approach to assessing international learning that has important implications for the design of multilateral forums and updates the Cold War areas of nuclear knowledge being learnt in the light of the NSS experience and other recent developments This work will be of interest to scholars and practitioners in security studies nuclear history and International Relations **Who's Who in Science and Engineering 2008-2009** Who's Who Marquis,Marquis Who's Who,2007-12 **Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions** National Academies of Sciences, Engineering, and Medicine,Division on Engineering and Physical Sciences,Board on Mathematical Sciences and Their Applications,Committee on Applied and Theoretical Statistics,Committee on Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions,2017-02-06 The Office of the Under Secretary of Defense Personnel Readiness referred to throughout this report as P R is responsible for the total force management of all Department of Defense DoD components including the recruitment readiness and retention of personnel Its work and policies are supported by a number of organizations both within DoD including the Defense Manpower Data Center DMDC and externally including the federally funded research and development centers FFRDCs that work for DoD P R must be able to answer questions for the Secretary of Defense such as how to recruit people with an aptitude for and interest in various specialties and along particular career tracks and how to assess on an ongoing basis service members career satisfaction and

their ability to meet new challenges P R must also address larger scale questions such as how the current realignment of forces to the Asia Pacific area and other regions will affect recruitment readiness and retention While DoD makes use of large scale data and mathematical analysis in intelligence surveillance reconnaissance and elsewhere exploiting techniques such as complex network analysis machine learning streaming social media analysis and anomaly detection these skills and capabilities have not been applied as well to the personnel and readiness enterprise Strengthening Data Science Methods for Department of Defense Personnel and Readiness Missions offers and roadmap and implementation plan for the integration of data analysis in support of decisions within the purview of P R

Physical Test Methods for Elastomers

Roger Brown, 2017-10-18 This book provides comprehensive coverage of all aspects of physical testing of elastomers rubbers and thermoplastic elastomers including mechanical electrical thermal and all aspects of durability Elastomers are an important class of materials used in such products as tyres seals and hose which have markedly different properties to other materials The importance of testing of elastomers means that a comprehensive text on the subject is essential The advantage over general materials testing books is being more specific while the advantage over general rubber technology books is that testing is dealt with in depth

Crime, Violence, and Global Warming

John Crank, Linda Jacoby, 2015-05-20 Crime Violence and Global Warming introduces the many connections between climate change and criminal activity Conflict over natural resources can escalate to state and non state actors resulting in wars asymmetrical warfare and terrorism Crank and Jacoby apply criminological theory to each aspect of this complicated web helping readers to evaluate conflicting claims about global warming and to analyze evidence of the current and potential impact of climate change on conflict and crime Beginning with an overview of the science of global warming the authors move on to the links between climate change scarce resources and crime Their approach takes in the full scope of causes and consequences present and future in the United States and throughout the world The book concludes by looking ahead at the problem of forecasting future security implications if global warming continues or accelerates This fresh approach to the criminology of climate change challenges readers to examine all sides of this controversial question and to formulate their own analysis of our planet's future

The Science of Managing Our Digital Stuff

Ofer Bergman, Steve Whittaker, 2016-11-04 Why we organize our personal digital data the way we do and how design of new PIM systems can help us manage our information more efficiently Each of us has an ever growing collection of personal digital data documents photographs PowerPoint presentations videos music emails and texts sent and received To access any of this we have to find it The ease or difficulty of finding something depends on how we organize our digital stuff In this book personal information management PIM experts Ofer Bergman and Steve Whittaker explain why we organize our personal digital data the way we do and how the design of

new PIM systems can help us manage our collections more efficiently Bergman and Whittaker report that many of us use hierarchical folders for our personal digital organizing Critics of this method point out that information is hidden from sight in folders that are often within other folders so that we have to remember the exact location of information to access it Because of this information scientists suggest other methods search more flexible than navigating folders tags which allow multiple categorizations and group information management Yet Bergman and Whittaker have found in their pioneering PIM research that these other methods that work best for public information management don't work as well for personal information management Bergman and Whittaker describe personal information collection as curation we preserve and organize this data to ensure our future access to it Unlike other information management fields in PIM the same user organizes and retrieves the information After explaining the cognitive and psychological reasons that so many prefer folders Bergman and Whittaker propose the user subjective approach to PIM which does not replace folder hierarchies but exploits these unique characteristics of PIM *Pervasive Information Systems* Panos E Kourouthanassis, George M

Giaglis, 2016-09-16 Today's ubiquitous computing technology is imbedded in everyday objects from cars to clothes to shipping containers whose location context and state can be monitored instantly processed and acted upon This new volume in the *Advances in Management Information Systems* series provides an in depth review of the state of the art practices and research opportunities in a new era where information technology resides in physical space Written for both scholars and practitioners *Pervasive Information Systems* is organized into three sections each investigating a distinct part of the subject Part I focuses on the design challenges of Pervasive Information Systems PS and discusses issues relating to the coordination of PS through middleware structures as well as issues related to the efficient deployment of PS Part II discusses the challenges and limitations of deploying pervasive technologies to support domestic corporate and public systems Part III presents two emerging research fields of PS design for aesthetics and PS evaluation **Something Incredibly Wonderful**

Happens K. C. Cole, 2009 As a young man Frank Oppenheimer followed in his famous brother's footsteps growing up in a privileged Manhattan household becoming a physicist working on the atomic bomb Tragically Frank and Robert both had their careers destroyed by the Red Scare But their paths diverged While Robert died an almost ruined man Frank came into his own emerging from ten years of exile on a Colorado ranch to create not just a multimillion dollar institution but also a revolution that was felt all over the world His Exploratorium was a museum of human awareness that combined art and science while it encouraged play experimentation and a sense of joy and wonder its success inspired a transformation in museums around the globe In many ways it was Frank's answer to the atom bomb K C Cole a friend and colleague of Frank's for many years has drawn from letters documents and extensive interviews to write a very personal story of the man whose irrepressible spirit would inspire so many *Who's who Among Students in American Universities and Colleges* Henry Pettus Randall, 1973 *Railway Safety, Reliability, and Security: Technologies and Systems Engineering* Flammini,
