*Illusions of Location Theory: Consequences for Blue Economy in Africa* Francis Onditi, Douglas Yates, 2021-01-05 Illusions of Location Theory Consequences for Blue Economy in Africa questions the relevance of location theory in explaining the coastal hinterland continuum and the implications for the utilization of blue economy ecosystem in such a contested space in Africa It pays more attention to territorial contestations maritime disputes vulnerabilities of landlocked states and expansionist policies as displayed through spatial organizational regimes These areas of investigation have previously been largely studied from the narrow perspective of location unduly focusing on comparative advantages of distance while neglecting the influence of forces such as technology ideology and the power of mental mapping in spatial decision making This volume puts forward the argument that the harmonious relationship between states and efficient exploitation of the blue economy ecosystem in ways that promote peace between states lies not only in the structural transformation of markets but also in bridging the spatial and social divide between the coastal and hinterland societies Thus this work proffers possibilities for a holistic regime for managing Africa s coastal hinterland continuum through innovative strategies such as SMART blue economies and the infusion of the geopolitical dimension into the management of maritime and territorial diplomacy The combination of theoretical and empirical analysis buttressed by in depth case studies of what works in the management of blue economy ecosystem and what does not work make this volume ideal for researchers students and practitioners interested in African regional studies African political economy political geography strategic military studies governance of seas and oceans and maritime science diplomacy

**Administrative Culture 14 (2)** Wolfgang Drechsler, Acting Politics Alfredo Joignant, 2018-11-06 Following Bourdieu this book seeks to think about politics without thinking politically advancing the view that politics as conventionally understood does not take place in a social vacuum but in the context of a certain topography of society that cannot be reduced to formal spaces such as a parliament Engaging with Bourdieu s theory of fields and focusing specifically on the notion of the political field the author analyses from a sociological perspective the functioning of the political field seeing it not simply as a formal space but as encompassing a sphere that is increasingly autonomous from others and driven by reasons and motives beyond those conventionally recognised as political Illustrated with cases from the real political life of different countries *Acting Politics* examines the nature of the practices of the agents who inhabit the political field building a picture of a type of competitive political activity that is fundamentally social and symbolic A sociological reading of the agents struggles and forms of the contemporary political field this book thinks with and against Bourdieu in a broad dialogue with different sociological currents and debates in other disciplines As such it will appeal to scholars of politics and sociology with interests in social and political theory and political sociology

Symbolic Power, Politics, and Intellectuals David L. Swartz, 2022-12-22 Power is the central organizing principle of all social life from culture and education to stratification and taste And there is no more prominent name in the analysis of power than that of noted sociologist Pierre Bourdieu Throughout his career Bourdieu challenged the commonly held view that symbolic power the power to dominate is solely symbolic He emphasized that symbolic power helps create and maintain social hierarchies which form the very bedrock of political life By the time of his death in 2002 Bourdieu had become a leading public intellectual and his argument about the more subtle and influential ways that cultural resources and symbolic categories prevail in power arrangements and practices had gained broad recognition In *Symbolic Power Politics and Intellectuals* David L Swartz delves deeply into Bourdieu s work to show how central but often overlooked power and politics are to an

**El juego político** Alfredo Joignant,2022-03-24 Este libro fue por primera vez publicado en inglés en 2019 por la editorial Routledge bajo un título difícilmente traducible al español Acting Politics a Critical Sociology of the Political Field en donde el sustantivo acting resuena a la vez como acción y actuación A través de este sustantivo lo que me propuse fue describir desde el mismo título el funcionamiento del campo político contemporáneo y la actividad que tiene lugar en su interior acciones pero también actuaciones en el sentido teatral y dramático del término Dada la dificultad de traducir el sustantivo preservando su polisemia en inglés renuncié pídicamente a ello buscando otra imagen para evocar lo mismo La solución a la que llegué fue llamar a este libro El juego político una sociología crítica del campo político precisamente porque la noción de juego no solo contiene la posibilidad de abstraerse de la realidad en todo tipo de culturas como ya lo había visto Huizinga en su Homo Ludens sino sobre todo de actuar como si el mundo político fuese un teatro ante públicos que no necesariamente están atentos a lo que allí ocurre Dicho de otro modo si hay un juego político al interior de un espacio diferenciado es porque quienes lo juegan son actores a través de representaciones no solo teatrales sino también simbólicas de los intereses de individuos y grupos que están siendo representados a través de una lucha que de lúdicamente tiene poco y de agonal mucho *Les*

dans les deux grands sens du terme d'une période marquée par les folles ambitions, la violence, la division, le désenchantement. Une autopsie des acteurs et des forces en jeu aussi éclairante que glorieuse. **Lawyering Europe** Antoine Vauchez, Bruno de Witte, 2013-03-13 While scholarly writing has dealt with the role of law in the process of European integration so far it has shed little light on the lawyers and communities of lawyers involved in that process. Law has been one of the most thoroughly investigated aspects of the European integration process and EU law has become a well established academic discipline with the emergence more recently of an impressive body of legal and political science literature on European law in context. Yet this field has been dominated by an essentially judicial narrative focused on the role of the European courts underestimating in the process the multifaceted roles lawyers and law play in the EU polity notably the roles they play beyond the litigation arena. This volume seeks to promote a deeper understanding of European law as a social and political phenomenon presenting a more complete view of the European legal field by looking beyond the courts and at the same time broadening the scholarly horizon by exploring the ways in which European law is actually made. To do this it describes the roles of the great variety of actors who stand behind legal norms and decisions bringing together perspectives from various disciplines: law, political science, political sociology and history to offer a global multi-disciplinary reassessment of the role of law and lawyers in the European integration process. **La géopolitique en fiches et en schémas** Brice Rabot, 2022-02-01 La géopolitique suscite régulièrement l'intérêt et la curiosité du grand public sans qu'il soit toujours facile de la définir. Véritable science humaine la géopolitique a parfois été instrumentalisée par certains régimes dans la première moitié du XXe siècle ce qui a profondément marqué les approches et conduit à prendre certaines distances. Depuis les années 1970-1980 la géopolitique a connu de profonds renouvellements qui ont conduit à multiplier les champs d'étude et à utiliser de nouveaux outils d'analyse empruntés aux autres sciences humaines pour mieux comprendre les situations de rivalités et les stratégies des différents acteurs. Cet ouvrage cherche à dresser en une centaine de fiches un panorama de la géopolitique aujourd'hui représentatif et le plus accessible possible à un large lectorat étudiants ou grand public. Pour ce faire chaque fiche est organisée autour des éléments clés à retenir afin de comprendre les grandes logiques et les principales oppositions. L'ouvrage est suivi de focus qui permettent d'approfondir certains aspects ou acteurs. Ces focus peuvent à la fois servir d'angles d'entrée dans le thème ou de compléments pour illustrer des dissertations ou des études de cas plus poussées. Chaque fiche se conclut par un schéma bilan qui permet de mettre en exergue les enjeux indispensables pour comprendre les situations différentes. Un va-et-vient entre les fiches est tout à fait possible et facilité par l'organisation thématique de l'ouvrage. *Varia*, 2016-10-15 Ce numéro de la revue *Politique européenne* rassemble six articles. Construire un espace français de recherches sociologiques sur l'Europe. Rattraper ou devancer l'Europe. Les simulations européennes. The Euro Crisis. Actors and their Roles. Académie européenne ou européenne. Akademie. De la carte routière itinéraire obligatoire ainsi que deux lectures de Christophe Bouillaud et Juliette Dupont.
