The Assessment Bridge Pearl G. Solomon, 2002-06-14 Just the kind of bridge we need to span the ideological wars and make schools work for teachers and their students Ann Lieberman Senior Scholar Carnegie Foundation for the Advancement of Teaching Visiting Professor Stanford University In her supremely well written and useful book Dr Solomon has woven together historical perspective research and her own considerable experience to address reforming schools in the 21st Century After defining the problem productive change Dr Solomon has examined old solutions and conceptualized new ones to create better schools for students Nancy Goldman Director of Curriculum Pearl River School District Pearl River NY Standards and implementation of the learning process go hand in hand The Assessment Bridge makes us clearly aware of the present need for a bridge between the two so that standards may not create greater failure and the rejection of formal education by many children Matthew Foley Pastor Epiphany Roman Catholic Church We must ensure that tests serve the needs of education not force education to fulfill needs of test creators The Assessment Bridge is award winning educator Pearl Solomon's penetrating and cogent examination of today's high stakes standards based testing

NAEP 1992 Mathematics State Report for New York National Assessment of Educational Progress, Princeton, NJ., 1993 In 1990 the National Assessment of Educational Progress NAEP included a Trial State Assessment which for the first time in the NAEP's history made voluntary state by state assessments. This 1992 mathematics report marks the first attempt of the National Center for Education Statistics NCES to shift to standards based reporting of National Assessment statistics. NAEP results are reported by achievement levels which are descriptions of how students should perform relative to a body of content reflected in the NAEP frameworks in other words how much students should know. The 1992 assessment covered six mathematics content areas: 1 numbers and operations 2 measurement 3 geometry 4 data analysis statistics and probability 5 algebra and functions and 6 estimation. In the District of Columbia 2 399 fourth grade students in 107 public schools and 1 816 eighth grade students in 35 public schools were assessed.
