Gravity at the International Criminal Court Priya Urs,2023-12-19 The gravity of a crime or case features in various international and national legal frameworks for the investigation and prosecution of international crimes At the International Criminal Court ICC sufficient gravity is a requirement for the admissibility of a case specified in Article 17 1 d of the Rome Statute The open textured nature of the provision leaves the manner of its application and ultimately its purpose in the context of the Prosecutor s decisions whether to investigate and prosecute open to discussion Set against the backdrop of ongoing debates on how to justify selective investigations and prosecutions at the Court Gravity at the International Criminal Court Admissibility and Prosecutorial Discretion addresses the question of how the gravity criterion is to be applied in the context of the Prosecutor s respective decisions whether to investigate and prosecute It argues that the purpose of the gravity criterion in this context is the allocation of investigative and prosecutorial resources First identifying appropriate indicators of gravity the book contends that the application of Article 17 1 d requires a subjective assessment that involves the exercise of discretion Second by clarifying the respective roles of the Prosecutor and the Pre Trial Chambers of the Court in the

assessment of gravity in different contexts it argues in favour of wide prosecutorial discretion in the making of this assessment compared with the limited powers of judicial oversight conferred on the Pre Trial Chamber

Timely and thorough Gravity at the International Criminal Court proposes a more coherent and persuasive application of the criterion contextualizing and comparing the ICC's approach in relation to other courts and bodies of law including international human rights law international investment law and international trade law

The Syrian Refugee Crisis in Lebanon Robert G. Rabil, 2016-07-29 This book examines the unfolding of the Syrian refugee crisis in relation to the spillover of the Syrian civil war in Lebanon and against the background of Lebanon Syria relations and Lebanon's socio political cultural legal and economic conditions It surveys Lebanon's response plans to the refugee crisis as part of the development of the international response plans to address the protection and needs of the Syrian refugees and Palestinian refugees from Syria as well as the impacted host communities and institutions At the same time this book emphasizes the dramatic shift in popular and institutional attitudes towards the refugees as a response to and as a growth of the sheer magnitude of the refugee crisis which made Lebanon the only country in modern history with the highest per capita concentration of refugees in the world By examining these attitudes against the background of achievements and failures of the response plans the impact of the crisis on state institutions on the local and national levels and the collective consciousness of a nation barely surviving the scars of its civil war this book not only underscores the deepening tragedy of Syrian and Palestinian refugees in Lebanon but also the consequential tragedy of many Lebanese who have been forced into poverty and whose livelihoods have been affected by insecurity and the almost complete collapse of social services As a result the tragedy of the Syrian refugee crisis has become an international crisis affecting vulnerable persons across nationalities and unless it is addressed diplomatically and its response plans sufficiently funded the tragedy will only deepen across continents
