CURRICULUM REFORM IN PAKISTAN Amna

Afreen, 2022-02-25 I have written this book in an effort to explore how the history of Pakistan has resulted in the critical problems weighing down its education system The book examines the questions Why and how has a small elite class come to rule Pakistan And how has their rule worsened the country's problems The focus will be to critically examine the elements of the Pakistani national curriculum and madrasas and their effects on Pakistani society The book represents the fusion of my experiences in Pakistan with extensive literature analysis interviews and textbook analysis This research began when I came to the United States in January 2015 through the SAR program I wanted to know the answers to profoundly unsettling questions How can a society be so intolerant that a scholar educated solely in Pakistan is disregarded and assassinated while many Western educated scholars with traditional insular thoughts are not only appreciated but flourishing I wanted to know why Pakistani elites have so much power and freedom while lower classes are profoundly oppressed Elites who barely pay taxes have been in power for generations while those that pay taxes suffer from sky high inflation The influential religious leaders mostly belong to the elite class while their followers are mostly lower class Ruling families and social classes mostly control appointed positions Do those in power not have a responsibility to speak on issues of social justice rather than limiting themselves in claiming that theirs is the only true form of Islam Why don't they work to end the disparity of quality education between classes in Pakistan Instead many elites run their own lucrative elite Islamic schools More importantly why do the ulama which literally means those who possess knowledge of Islam maintain a tight hierarchical system in the madrasa Islamic seminary community that rarely allows poor intelligent students to attain leadership positions

Why are the ulama silent in the face of ruthless murder of and discrimination against Pakistani minorities Book Review
Pakistan Educational Reforms is a major study of education in Pakistan and its national and madrasa curriculum that fosters national and religious sectarian divisions intolerance and conflicts Dr Amna Afreen documents the political socio economic and religious causes limited government funding widespread poverty and illiteracy and the poor training and performance of teachers that have produced a failed educational system at urban and rural government and religious schools madrasa and offers a series of potential solutions and reforms John L Esposito University Professor and Founding Director of The Alwaleed Center for Muslim Christian Understanding Georgetown University

International Practices to Promote Budget

Literacy Harika Masud, Helene Pfeil, Sanjay Agarwal, Alfredo Gonzalez Briseno, 2017-08-09 Budget literacy is defined as the ability to read decipher and understand public budgets to enable and enhance meaningful citizen participation in the budget process It is comprised of two main parts i a technical understanding of public budgets including familiarity with government spending tax rates and public debt and ii the ability to engage in the budget process comprising of practical knowledge on day to day issues as well as an elementary understanding of the economic social and political implications of budget policies the stakeholders involved and when and how to provide inputs during the annual budget cycle Given that no international standards or guidelines have been established for budget literacy education to date this book seeks to address this gap by taking stock of illustrative initiatives promoting budget literacy for youth in selected countries The underlying presumption is that when supply side actors in the budget process governments simplify and disseminate budget information for demand side actors citizens this information will then be used by citizens to provide feedback on the budget However since citizens are often insufficiently informed about public budgets to constructively participate in budget processes one way to empower them and to remedy the problem of budget illiteracy is to provide budget literacy education in schools to youth helping them evolve into civic minded adults with the essential knowledge needed for analyzing their government's fiscal policy objectives and measures and the confidence and sense of social responsibility to participate in the oversight of public resources This book elaborates on approaches learning outcomes pedagogical strategies and assessment approaches for budget literacy education and presents lessons that are relevant for the development improvement or scaling up of budget literacy initiatives

Sustainable Development Samuel O. Idowu, Henk J. de Vries, Ivana Mijatovic, Donggeun Choi, 2019-09-27 This book

examines education about standardization in the context of sustainable management. It shows the role of standardization education in the global economy and in markets, industries and businesses. The book presents knowledge on standardization for sustainable management, describes measures that can be taken to stimulate it and highlights strategies for teaching and disseminating the concept. Subsequently presenting a number of best practices and case studies, the book seeks to align theory and practice. For researchers, this is the first academic publication that interconnects the concepts of sustainability, standardization and education. For professionals in the area of sustainability, it shows that standardization is an essential instrument for enhancing sustainability for which proper education is needed. For standardization professionals, the book reveals the links to sustainability and it shows not only the importance of education about standardization but also how this can be organized and finally for universities, the book shows that standardization deserves to be included in the curriculum and it provides guidance and best practice examples about how this can be done.

Food and Cooking Skills Education Anita Tull, 2018-01-29. Food and Cooking Skills Education (FCSE) is a complex mix of policy and practicality, educational theory and pedagogy, classroom and government policy. This book shows how FCSE has been at the centre of a tussle between education and policy for decades. It reviews how FCSE has grappled with various significant issues of concern that threaten to marginalise it and pose problems for educational practicalities as expectations are increased but resources are squeezed. It assesses the debate about the significance and importance of acquiring practical food and cooking skills in a society where the purchase of ready-made food has become commonplace and public knowledge of where our food comes from is noticeably lacking. This has contributed to the escalating incidence of diet-related diseases and the attendant cost to society and threatened environmental sustainability. In turn, governments have reacted by proposals to make practical cooking skills a statutory National Curriculum subject as part of the armoury for tackling such costs. Based on detailed research conducted across England and Wales as well as comparisons with thirty-five other countries or states, the author makes recommendations for policy to manage this challenge facing contemporary society.

Cambridge IGCSE® Business Studies Coursebook with CD-ROM Mark Fisher, Medi Houghton, Veenu Jain, 2014-05-29. The CD-ROM contains revision aids, further questions and activities. A Teachers' CD-ROM is also available.

Pakistan Under Siege Madiha Afzal, 2018-01-02. Over the last fifteen years, Pakistan has come to be defined

exclusively in terms of its struggle with terror But are ordinary Pakistanis extremists And what explains how Pakistanis think Much of the current work on extremism in Pakistan tends to study extremist trends in the country from a detached position a top down security perspective that renders a one dimensional picture of what is at its heart a complex richly textured country of 200 million people In this book using rigorous analysis of survey data in depth interviews in schools and universities in Pakistan historical narrative reporting and her own intuitive understanding of the country Madiha Afzal gives the full picture of Pakistan s relationship with extremism The author lays out Pakistanis own views on terrorist groups on jihad on religious minorities and non Muslims on America and on their place in the world The views are not radical at first glance but are riddled with conspiracy theories Afzal explains how the two pillars that define the Pakistani state Islam and a paranoia about India have led to a regressive form of Islamization in Pakistan s narratives laws and curricula These in turn have shaped its citizens attitudes Afzal traces this outlook to Pakistan s unique and tortured birth She examines the rhetoric and the strategic actions of three actors in Pakistani politics the military the civilian governments and the Islamist parties and their relationships with militant groups She shows how regressive Pakistani laws instituted in the 1980s worsened citizen attitudes and led to vigilante and mob violence The author also explains that the educational regime has become a vital element in shaping citizens thinking How many years one attends school whether the school is public private or a madrassa and what curricula is followed all affect Pakistanis attitudes about terrorism and the rest of the world In the end Afzal suggests how this beleaguered nation one with seemingly insurmountable problems in governance and education can change course
