

English Research Paper: Overview

Objective One

Distributed: Wednesday, February 2, 2011

Due: Friday, February 4, 2011

The English Research Paper is the culminating project and assessment of all the writing, reading, and research techniques you have accumulated throughout the course of the year. This vital and pivotal piece of the curriculum affords an opportunity to demonstrate the ability to read, write, speak, apply knowledge, problem solve, and use a myriad of life skills such as time management, organization, and risk-taking and will occur from March until May. The two (2) components of the project are as follows:

Research Paper

The student will self-select and research a topic in which he/she has an interest. The culmination of the research work is a 1250 word (4-5 text pages) research paper organized around a clearly stated thesis and adhering to standard documentation forms (MLA Handbook) and standard manuscript guidelines. Submitted in the fourth marking period, the research paper and standard manuscript grades will appear in the student's fourth marking period Assessment category of grades. The paper will count for 200 points in the Assessment category. **The paper is due on Friday, April 15, 2011 and must be posted on turnitin.com.**

Oral Presentation and Defense

The student will present his/her project to the class. This is not a reading of the paper but a dynamic presentation of the work using visual aids, constructed models, videos, or any other approved media. The student must interact with the class and teacher during the presentation. The Oral Presentation will take place during the fourth marking period and will be reflected in the fourth marking period Assessment categories of grades. The speech will count for 200 points in the Assessment category. **The presentations will take place from May 17-20, 2011.**

Note

In order for this process to be a successful learning experience, this Objectives Packet enables the student to approach this project in a measured way, with each component having a separate due date. Language, research, speaking, and writing assignments given to students during the course of the semester afford opportunities to practice and to perfect further the skills necessary to successfully meet the objectives required to successfully complete the research paper. Students and parents should note that students and their families can locate information, extra copies, and models for all of the needed research requirements on our class website.

Although we will have many opportunities to visit the library in school and to work on writing during class, students are expected to work independently at home and during study halls, if needed. Please also consider that academic programs will still be occurring; therefore, students should manage their time wisely in order to prepare for quizzes, exams, and other academic responsibilities that may be unrelated to the research project.

The book also offers guidelines for preparing proposals for research projects *Research Methods and Thesis Writing' 2007 Ed. , 2007* **Anthropological Research Methodology** Gaya Pandey, 2018-01-01

The book entitled Anthropological Research Methodology Theory and Practice is an attempt to present different aspects of anthropological researches within one cover to extend help to students scholars and researchers in understanding the whole issue of research methodology taught and employed in anthropology
Anthropological Research

Methodology has its own feature That is why its methodology is quite different from the methodology of other social sciences The ethnographic method or fieldwork method is soul of Anthropology This method helps a researcher to establish a balance between subjectivity and objectivity There are a number of books written in English by different scholars on different aspects of Anthropological researches But they are not found in one cover and they lack Indian expression The book presents systematically chapters on Historical Background of Anthropological Researches Anthropological Approaches Types of Researches Research Designs Hypothesis Theory Law and Concept Techniques of Data Collection Scrutiny and Data Processing Presentation of Data Statistics Statistical Analyses of Mean Median Mode Standard Deviation Partition Value Correlation Chi square Fitness of good Report writing Thesis dissertation writing Scientific paper writing and Bibliography writing The simple language of the book will definitely serve the purpose of students scholars researchers interested not only in Anthropological Researches but Researches in other Social Sciences Teaching & Research Aptitude Solved Papers YCT Expert Team , 2023 24 NTA UGC NET JRF Teaching Research Aptitude 82 Sets **Research Paper** ,1965 **The Objectives of Islamic Law** Rume Ahmed,Iidris Nassery,Muna Tatari,2020-07-06 Scholars thinkers and activists around the world are paying increasing attention to a legal reform method that promises to revolutionize the way people think about Islamic law Known as The Objectives of the Shari a maqa id al shari a the theory offers a way to derive and apply new Islamic laws using an ancient methodology The theory identifies core objectives that underlie Islamic law and then looks at inherited Islamic laws to see whether they meet those objectives According to the maqa id theory historical Islamic laws that meet their objectives should be retained and those that do not no matter how entrenched in practice or embedded in texts should be discarded or reformed Recently several scholars have questioned the maqa id theory arguing that it is designed not to reform laws but to support existing power structures They warn that adopting the maqa id wholesale would set the reform project back ensuring that inherited Islamic laws are never fully reformed to agree with contemporary values like gender egalitarianism and universal human rights The Objectives of Islamic Law The Promises and Challenges of the Maqa id al Shari a captures the ongoing debate between proponents and skeptics of the maqa id theory It raises some of the most important issues in Islamic legal debates today and lays out visions for the future of Islamic law *Writing Human Factors Research Papers* Don Harris,2012 It is one thing to write a good scientific paper it is quite another thing to get it published Don Harris draws upon nearly a quarter of a century of experience as an author and reviewer of research papers and ultimately as a journal editor By his own admission it contains all the things he wished that his mentors had told him 25 years ago but did not The material in the book is drawn from many years of finding all these things out for himself Writing and Publishing Science Research Papers in English Karen Englander,2013-10-11 This book provides a comprehensive review of the current knowledge on writing and publishing scientific research papers and the social contexts It deals with both English and non Anglophone science writers and presents a global perspective and an international focus The book collects and

synthesizes research from a range of disciplines including applied linguistics the sociology of science sociolinguistics bibliometrics composition studies and science education This multidisciplinary approach helps the reader gain a solid understanding of the subject Divided into three parts the book considers the context of scientific papers the text itself and the people involved It explains how the typical sections of scientific papers are structured Standard English scientific writing style is also compared with science papers written in other languages The book discusses the strengths and challenges faced by people with different degrees of science writing expertise and the role of journal editors and reviewers **Online**
