### Investment in the Future

- [illegible]

**Abstract**—The purpose of this study was to determine the effect of a 12-week training program on the heart rate (HR) and energy expenditure (EE) of sedentary, middle-aged women. The subjects were randomly assigned to a control group (CON) and an exercise group (EX). The EX group performed a 12-week training program consisting of three sessions per week of aerobic exercise. The HR and EE were measured at baseline and at the end of the 12-week training program. The EX group showed a significant decrease in HR and a significant increase in EE compared to the CON group. The results of this study suggest that a 12-week training program can improve the cardiovascular fitness and energy expenditure of sedentary, middle-aged women.

If you are submitting a paper, please follow the instructions carefully set out in the original article. If the editor is requesting the (re)submission of a paper, we strongly request you to follow all the relevant changes.

23. Before establishing a cash account A/R, set up a document for your business called FORM CASH A/R.
24. If you establish the first cash account without attaching to the cash account from your business a copy, the cash account is becoming inactive and the account will be closed. This is not allowed. This means you will be purchasing this type of cash account bill, as pointing out the group appears in group 1.
25. Do not include the FY of issue from a FY document.
26. When establishing a cash account for a cash account document in the system, use the FORM CASH A/R.

© 2004 Blackwell Publishing Ltd, *Journal of Internal Medicine* 255: 299–307

- Day and night periods that are longer than the standard 24 hours occur most commonly with the use of artificial light or other light sources. To avoid this, there are two things the producer should do:
  - 1. Turn off the lights at the end of the day.
  - 2. Avoid excessive light intensity, the length of the day and the light spectrum (the color of the light) are important.
- The end of the day is the best time to change the light spectrum. The producer should be looking for the light spectrum to be most suitable for these periods of activity. However, there is no consensus about the 500 nm (a red).

Downloaded from <http://ajphaphapublications.sagepub.com> at 11:06 11 November 2014

When you install your T-Value One Connection, improper installation of all four screws (50 combinations for One Connection) will void the warranty. Please, before installing, refer to the correct installation instructions. Failure to maintain proper ventilation may result in a variety of problems with the product.

- When a producer's price for the output rises or falls, it must adjust its output level accordingly. For example, if the price of the output rises, the producer will want to produce more of the output, and if the price falls, the producer will want to produce less of the output.
