Byrd, 2014-07-11 In the early nineteenth century a young man belonging to the prominent Byrd family of Virginia the grandson of William Byrd III took up residence in the Shaker community at Pleasant Hill Kentucky Over the next two years 1826 1828 he wrote a series of letters to his father a federal judge in Ohio describing his experiences and his impressions of the United Society of Believers as the Shakers were formally called Eventually William S Byrd became a convert to the society and an advocate of its beliefs and practices His letters cut short by his father s death offer today s reader an intimate view of communal life among the Shakers at a time of considerable turmoil in their village In the correspondence of William S Byrd the Shaker experience is expressed in human terms and becomes a living faith The letters also record the trials associated with conversion to a religion that was socially unacceptable to many Americans of the time Some of their more poignant passages describe young Byrd s attempt to reconcile the tensions created by his membership in two families the one of blood and the one of faith *Letters from a Young Shaker* provides an unusually instructive commentary on life in a Shaker community on the questions agitating the community and on the appeal of Shakerism to Americans in the early nineteenth century In addition to the letters the book contains other documents bearing on William Byrd s relationship with the settlement at Pleasant Hill and an introduction placing him in the social and religious context of the period This book will appeal to historian of American society and to anyone interested in the Shaker way of life *Affectionate Authorities* Philip Grace, 2016-03-16 In one of his sermons the medieval preacher Bernardino of Siena listed seven fathers to whom one owed obedience God one s natural father godfather confessor benefactor a government official and any elderly man This book seeks to answer the question of why medieval Europeans saw the need for so many fathers Why was fatherhood so appealing as a metaphor Situated at the intersection of social and cultural history the study draws upon a variety of late medieval and early modern sources including witness depositions personal letters and pedagogical treatises from the city of Basel Switzerland It focuses on how people from different walks of life invoked ideas about fatherhood in the pursuit of various goals not only the ideological agendas of scholarly elites but also the more pragmatic problems of closing a

business deal claiming an inheritance or choosing sides in a fistfight before turning to what these ideas reveal about fatherhood on the ground The book argues that it was precisely fatherhood's basis in lived experience that gave it a familiar shape in the several roles that fathers played including provision affection disciplinary authority and education The most potent rhetorical aspect of fatherhood however was not as a static image or shape but rather the possibility of invoking connections between one role and another The most potent connection between roles was the idea that fathers were affectionate authorities combining power over subordinates with desire for their well being Tracing the connections and contradictions of these identities this study provides a nuanced view of concepts of fatherhood on the eve of the Reformation

Negotiating Empire Solsiree del Moral, 2013-03-15 After the United States invaded Puerto Rico in 1898 the new unincorporated territory sought to define its future Seeking to shape the next generation and generate popular support for colonial rule U S officials looked to education as a key venue for promoting the benefits of Americanization At the same time public schools became a site where Puerto Rican teachers parents and students could formulate and advance their own projects for building citizenship In *Negotiating Empire* Solsiree del Moral demonstrates how these colonial intermediaries aimed for regeneration and progress through education Rather than seeing U S empire in Puerto Rico during this period as a contest between two sharply polarized groups del Moral views their interaction as a process of negotiation Although educators and families rejected some tenets of Americanization such as English language instruction they also redefined and appropriated others to their benefit to increase literacy and skills required for better occupations and social mobility Pushing their citizenship building vision through the schools Puerto Ricans negotiated a different school project one that was reformist yet radical modern yet traditional colonial yet nationalist
