including writing designing and dissemination It is also unusual in that the author stalks personally to the reader lots of practical advice offered and for the real conversations it furnishes from practising and recent researchers It makes a very welcome change from those stereotypical research methods books that seem only ever to tell you what you already knew in a remote formalistic and repetitive fashion By contrast this book is fresh interesting fills a real gap in the research literature and the authors passion for quality research is there for everyone to see Professor David Nicholas Director School of Library Archive and Information Studies and UCL Centre for Publishing University College London I was delighted when I discovered this treasury of useful advice and insight and I recommend it to my research students The book is based on interviews with real research students who are quoted at length so it offers the solidarity of a shared experience not just a lecture The authors understand the difficulties that students face as they try to organize their thoughts their time and the inevitable mountain of data and references They demonstrate the power of diagramming and clear typography in their own writing and their graphic techniques are powerful ways to organize the processes of thinking and writing The resulting clarity will also delight supervisors and examiners Rob Waller Professor of Information Design Department of Typography and Graphic Communication University of Reading You can't do research of any kind without doing two things 1 Finding and organizing relevant information 2 Transforming it into the end product on which your research will be judged and rewarded or not Yet realistic and detailed guidance on these vital activities is in short supply The authors unique design approach shows how the two are related and how they can support each other throughout research New features in this completely rewritten and re designed edition include Stories from the experience of researchers Typographical page layout templates for each part of a dissertation Tips time savers and troubleshooting for dissertation writers
