Study Guide for Decoding Persepolis Steven Smith, 2023-11-10 Decoding Persepolis takes the reader deep into Marjane Satrapi's Persepolis: The Story of a Childhood offering a comprehensive look into the memoir's exploration of character dynamics, themes, symbolism, and the overarching narrative. The guide begins by exploring Marjane's intricate relationships with her family and friends, which form the emotional backbone of the story. Throughout the memoir, Marjane navigates a labyrinth of conflicts mirroring the tumultuous environment of revolutionary Iran. These conflicts range from internal struggles with faith and identity to confrontations with societal norms, the education system, and the broader political turmoil that envelops her country. This guide examines the author's use of potent symbolism throughout the narrative, using elements like the veil, keys to paradise, and cigarettes to convey repression, manipulation, and rebellion themes. The climax of the story is reached with Marjane's increasing rebellion against societal norms, leading to her parents' decision to send her to Austria. This moment of departure marks a significant transition in her life, symbolizing not just a physical departure but also a departure from childhood. Persepolis provides a deeply personal glimpse into a critical period of Iranian history, inviting readers to reflect on the intersections of politics, family, and personal development. **Volume I** Brian P. Levack, Michael Maas, Edward Muir, Meredith Veldman, 2006-03-16      *Persian Kingship and Architecture* Sussan Babaie, Talinn Grigor, 2015-02-17 Since the Shah went into exile and the Islamic Republic was established in 1979 in the wake of the Iranian Revolution the very idea of monarchy in Iran has been contentious Yet as *Persian Kingship and Architecture* argues the institution of kingship has historically played a pivotal role in articulating the abstract notion of Iran since antiquity These ideas surrounding kingship and nation have in turn served as a unifying cultural force despite shifting political and religious allegiances Through analyses of palaces mausolea art architectural decoration and urban design the

authors show how architecture was appropriated by different rulers as an integral part of their strategies of legitimising power. They refer to a variety of examples from the monuments of Persepolis under the Achaemenids, the Sassanian palaces at Kish, the Safavid public squares of Isfahan, the Qajar palaces at Shiraz, and to the modernisation and urban agendas of the Pahlavis. Drawing on archaeology, ancient, medieval, early and modern architectural history, both Islamic and secular, this book is indispensable for all those interested in Iranian studies and visual culture.
