Sailing Through the Storms of Seizures Jon Sadler, 2018-06-25 Jon has lived with epilepsy for over fifty years There were times when he was broken and defeated by seizures then discovered the power of hope Jon believes he can provide that hope to others dealing with seizure disorders by sharing his experience In *Sailing through the Storms of Seizures* he provides the perspective of the child student father and caregiver Jon had his first seizure at the age of four and was treated with medication for several years His seizures returned while in college At the age of forty six his seizures became intractable and brain surgery his only option to regain control There were many people who helped him with his recovery his family church counselor and those he met who faced similar situations Soon after his surgery Jon met a man who was distraught over his four year old son who suffered from intractable seizures As Jon shared his experience he witnessed hope being instilled in the man and his family He is now a mentor and a counselor focusing on helping people live with epilepsy His greatest joy comes from his two sons who have been there when needed and accomplished much in their lives and careers

My Moment of Impact: A Journey with Epilepsy Kerri Croake, 2022-11-15 The word Epilepsy is derived from the Greek root *lep* meaning to grab or seize or take hold of *Epi* means outside of next to So epilepsy is a condition in which one is seized by something outside one s control Imagine living with a condition that is always hanging above your head like the sword of Damocles not exactly knowing if a seizure will strike or when The tree of epilepsy has many branches including seizures anxiety mood symptoms cognitive symptoms and psychosocial implications to name a few It is so

refreshing and clarifying to hear such a strong and insightful voice as Kerri s tell her story It allows us to get a glimpse into the labyrinth of complexity that living with epilepsy is I have been treating her for nearly two decades She has a refractory and severe case of epilepsy but her spirit has been untouched and if anything strengthened Her wit intellect emotional maturity self transcendence perserverence and steady reflection make this a unique work It is rare to hear from patients themselves when exploring neurological illnesses as often the illness robs the person of their ability to communicate these complexities with clarity Not the case with Kerri This book is one of the best explorations of this illness I have ever seen coming from a patient Her inborn resources and strengths allow us to walk with her on her journey and get a peak behind the curtains More important than what it teaches us about epilepsy we are exposed to a truly remarkable human being whose fire burns bright and whose light and heat provide warmth and illumination for all of us Taking this stroll with Kerri leads not just to a deeper understanding of how epilepsy works in people s lives but to be empowered and inspired by her story and her personhood one that shines in all that she does It is a rare gift One example of this soul force in Kerri is the simple fact that she wrote a whole book so beautifully in the face of aphasia language deficits she acquired after her epilepsy surgery Kerri has been an energizing inspiration in my life as her treating physician I have no doubt that any reader of this book will also catch that fire

Ketosis + BDNF: The Healing Molecules That Saved My Life Dr Mehmet Yildiz, 2025-09-16 In my 20s I trusted mainstream health advice like eat less fat move more and take pills when numbers rise But following that path left me trapped in prediabetes abdominal

obesity arthritis chronic inflammation leaky gut and relentless brain fog By the time I turned 30 my health was slipping into dangerous territory That was when I decided to reclaim my life not as a patient but as a curious postdoctoral researcher and sensible biohacker This book is the story of how two overlooked molecules Beta Hydroxybutyrate BHB and Brain Derived Neurotrophic Factor BDNF became my lifeline They helped me rewire my brain restore my metabolism and rebuild my immune system They gave me back the clarity energy and joy I thought I had lost forever But this book is not just my memoir It is an invitation for you to see what is possible when science curiosity and lived experience meet My journey will not mirror yours but the lessons I learned can inspire you to look at your own health through a new lens With the guidance of qualified healthcare professionals you can adapt the principles I used fasting nutritional ketosis exercise stress reduction and lifestyle shifts to your own context The value of this book lies in the perspectives insights and practical examples it offers for anyone who wants to move from struggling to thriving I turned my body into a laboratory testing approaches with care science and common sense My experiments included time restricted eating intermittent fasting caloric deficit a ketogenic diet intense exercise and lowering chronically elevated cortisol through stress management Later I expanded into long term fasting three to ten days four times a year These strategies helped me become more insulin sensitive optimize cortisol balance hormones and address every factor of metabolic syndrome without medication or surgery The results were extraordinary my blood sugar normalized inflammation subsided arthritis eased abdominal fat melted gut integrity improved and brain fog lifted Beyond repair I found prevention and for the first time in my life I gained six pack abs on my 50th birthday My biomarkers now show optimal ranges past sixty suggesting resilience against diabetes cardiovascular disease dementia Alzheimer s and perhaps even certain cancers I blend decades of research with personal observation to show how BHB and BDNF influence metabolic mental and immune health Each chapter combines story science and reflection with practical ideas you can discuss with your own health team This is a specialized memoir and follow up on my previous books including Cortisol Clarity Train Your Brain for a Healthier and Happier Life Cellular Intelligence Lifespan Mastery and Sensible Biohacks that Changed My Life To make my 300 000 page research journal in biochemistry accessible I distilled it into a 30 000 word book with the help of Hemingway Editor I simplified complex material to a Grade 7 level so that readers without a science or technology background could follow along My goal was to offer them the same life changing insights I discovered presented in a way that is both clear and practical I offer nuanced perspectives shaped by lived experiences and the growing scientific literature in the last four decades I wrote this memoir with complete honesty and transparency from the heart mind and spirit sharing both the highs and lows to empower you with knowledge hope and tools to explore If you approach this book with an open mind it may challenge what you have been told and help you craft a healthier and happier future at any age
