Similes, Puns and Counterfactuals in Literary Narrative Jennifer Riddle Harding,2017-04-21 In this study Jennifer Riddle Harding presents a cognitive analysis of three figures of speech that have readily identifiable forms similes puns and counterfactuals Harding argues that when deployed in literary narrative these forms have narrative functions such as the depiction of conscious experiences allegorical meanings and alternative plots uniquely developed by these more visible figures of speech Metaphors by contrast are often invisible in the formal structure of a text With a solid cognitive grounding Harding s approach emphasizes the relationship between figurative forms and narrative effects Harding demonstrates the literary functions of previously neglected figures of speech and the potential for a unified approach to a topic that crosses cognitive disciplines Her work has implications for the rhetorical approach to figures of speech for cognitive disciplines and for the studies of literature rhetoric and narrative **Subjecting Verses** Paul Allen Miller,2009-01-10 The elegy flared into existence commanded the cultural stage for several decades then went extinct This book accounts for the swift rise and sudden decline of a genre whose life span was incredibly brief relative to its impact Examining every major poet from Catullus to Ovid Subjecting Verses presents the first comprehensive history of Latin erotic elegy since Georg Luck s Paul Allen Miller harmoniously weds close readings of the poetry with insights from theoreticians as diverse as Jameson Foucault Lacan and Zizek In welcome contrast to previous thematic studies of elegy efforts that have become bogged down in

determining whether particular themes and poets were pro or anti Augustan Miller offers a new symptomatic history He asks two obvious but rarely posed questions what historical conditions were necessary to produce elegy and what provoked its decline Ultimately he argues that elegiac poetry arose from a fundamental split in the nature of subjectivity that occurred in the late first century a split symptomatic of the historical changes taking place at the time Subjecting Verses is a major interpretive feat whose influence will reach across classics and literary studies Linking the rise of elegy with changes in how Romans imagined themselves within a rapidly changing society it offers a new model of literary theory that neither reduces the poems to a reflection of their context nor examines them in a vacuum
