Catalog It! Allison G. Kaplan, 2015-12-07 Whether you're a practicing cataloger looking for a short text to update you on the application of RDA to cataloging records or a school librarian who needs a quick resource to answer cataloging questions this guide is for you Since the last edition of this invaluable text was published the library world has experienced a revolution in descriptive cataloging the likes of which has not been seen since the early 1980s This updated third edition of an established and well

respected guide makes it easy for you to stay in step with those monumental changes The book will help you understand the latest fundamentals of cataloging so you can get items on the library shelves quickly and efficiently Every chapter has been revised Changes in standards including RDA and BISAC that were alluded to in the second edition are discussed in depth and illustrated with explanations and sample problem sets are included so you can put theory into practice In addition the book provides you with clear headings for easy scanning as well as cheat sheets and templates for creating records for book and non book items Previous editions of this text have been used by library practitioners and library and information science professors across the country because of its spot on easy to follow guidance on cataloging for school libraries This new edition builds upon those strengths adding everything you need to know about current groundbreaking changes

Photographer's Guide to the Panasonic Lumix LX100 Alexander S. White, 2015-01-06 With the release of this guide book for the Panasonic Lumix DMC LX100 camera, White Knight Press has provided users with a complete guide to all operations of this advanced compact camera. Using a tutorial-like approach, the book provides guidance to beginning and intermediate photographers about how to accomplish things with the LX100, with tips about when and why to use the camera's many controls, menus, options, and other features. The book provides details about the camera's controls for autofocus, manual focus, aperture, shutter speed, exposure compensation, white balance, and ISO sensitivity, as well as many other settings. The book also provides details about the camera's numerous options for playback setup and customizing the operation of the various buttons and other controls. The book contains more than 350 photographs, almost all in full color, illustrating the LX100's controls, display screens, and menus. The images also provide examples of the photographs that can be taken using the many creative settings of the camera, including the Photo Style settings, which let the photographer alter the color processing, as well as contrast, sharpness, and noise reduction for images; the Intelligent Auto shooting mode with scene detection optimized for various subjects, including landscapes, portraits, and sunsets; the Filter button picture effects, which provide the ability to customize the appearance of images in dramatic ways; and the camera's strong array of features for continuous shooting and shooting in high contrast lighting conditions. The book also includes a full discussion of the video recording abilities of the LX100, which offers manual control of exposure and focus during movie recording and which provides ultra high definition 4K recording of motion pictures. In three appendices, the book provides information about accessories for the LX100, including cases, external flash units, and other items, and includes a list of web sites and other resources for further information. The book includes an
