What Evidence Shows that DNA Was Created by the God? Victor W. Chang, Guoping Song,2020-07-04 Where do we come from Who are we Where are we going These three questions continue to haunt human beings since ancient times and they are questions without any explanations The important conclusions from the human genome test of the DNA coding sequence The autosomes are not different between men and women These conclusions irreversibly refute the traditional theory of evolution We have raised this simple question to seven M D Ph D including three professors who specialize in biology Why are autosomes not different between men and women Invariably their answer was either I cannot explain or I don t know To me as a computer engineer the human genome is equivalent to a software package If we are certain that the 2.9 billion codes of autosomes are not different between men and women then the autosomes must be from the same source sequence of coding I am sure that such a huge coding sequence must have a maker He made the human genome Now we can reach another conclusion the first woman came from the first man by the fact that the 2.9 billion codes of autosomes are not different between men and women The next conclusion is that the first man never came from a woman and he must have neither physical parents nor a regular physiological birth This is a key to open the origins of mankind DNA reveals to us the truth that God created life

**Scientific Evidence of the Christian Faith, DNA – the Starting Point** Victor W. Chang, Guoping Song,2020-07-04 Does the Christian faith have scientific evidence This is difficult to believe However since DNA was discovered we now understand the entire DNA coding sequence of humans is consistent

and the difference is only one thousandth The theory of mathematics probability tells us that it could not be the result of spontaneous generation Therefore the molecular biologist put forward that people of the whole world have the common grandfather Y chromosome Adam theory and the common grandmother Eve theory Do you agree What is amazing is that there is no difference between man s and woman s 2 9 billion chromosomal DNA coding sequence meaning that human DNA coding is from one individual Only men have the complete set of the chromosome so the source individual must be a man and the first woman was from the man The first man had no carnal parents and it only could be Adam created by God Due to the constancy of biological genome DNA coding it is impossible for any species to have an evolution connection not even microevolution This is what is recorded in the Bible as all living from each category It therefore can be seen that life s DNA coding sequence is from God s Creation From our DNA we could see that all the substances and lives in the universe are created by God These scientific facts are totally consistent with the Biblical record and are objective evidence of the Christian faith
