Creating Romantic Obsession Kathleen Béres Rogers, 2019-03-29 Most of us have at one time been obsessed with something but how did obsession become a mental illness This book examines literary medical and philosophical texts to argue that what we call obsession became a disease in the Romantic era and reflects the era's anxieties Using a number of literary texts some well known like Mary Shelley's 1818 *Frankenstein* and Edgar Allan Poe's 1843 *The Tell Tale Heart* and some not like Charlotte Dacre's 1811 *The Passions* and Charles Brockden Brown's 1787 *Edgar Huntly* the book looks at *vigilia* an overly intense curiosity intellectual monomania an obsession with study nymphomania and erotomania gendered forms of desire revolution an obsession with sublime violence and military service and ideality an obsession with an idea The coda argues that traces of these Romantic constructs can be seen in popular accounts of obsession today

Theoretical Frameworks for Personal Relationships Ralph Erber, Robin Gilmour, 2013-06-17 The past two decades have seen a tremendous increase in research and scholarship devoted to personal relationships From rather scattered beginnings a recognizable and recognized field has emerged whose strength and health is reflected in a wide array of indicators The editors contend that while the vigor of the field is often shown in the diversity and innovation of its research it is in the theoretical domain that they find evidence of a real coming of age This volume provides grounds for arguing that the diversity of theorizing is particularly healthy at this point The reader will notice that there is some diversity in terms of how much theory and research is contained in each chapter some are purely theoretical others are complemented by original pieces of empirical research The editors and contributors are from different countries another way in which the diversity of this book manifests itself The variety of the frameworks presented are seen as a strength as building on established strengths elsewhere to feed into relationship research and enhance its vitality Each chapter makes its own contribution to thinking and research about personal relationships As a group they add to an exciting collection that not only reflects a richness of conceptual backing but also a wide range of usable theoretical structures Hollywood from Vietnam to Reagan-- and Beyond Robin Wood, 2003 This new edition includes all the chapters of the original work supplemented with analysis of comedy films of the 1990s a chapter on contemporary filmmakers including David Fincher Jim Jarmusch an essay on *Day of the Dead*
