STEP 2

Now use one red and one blue opaque disc to see if your expected results from the Punnet square match your actual results. On the red opaque disc, write a capital "T" on each side. On the blue disc, write a lowercase "t" on each side. Place 2 discs in a cup. Shake the cup and toss the coins on your desk. Repeat this step several times.

a) What are the genotypes that always show up?

b) What is the phenotype of the entire F1 generation? Explain.

STEP 3

To visualize how a dominant trait can actually mask the effects of a recessive trait your students will place a green and a yellow transparent disc on top of each other. They should hold them together and look through them at a light. Which color is visible? Which is the dominant trait in this simulation?

Questions

1. Is it possible for two organisms to have different genotypes but the same phenotype? Explain your answer.

2. Is the F1 generation homozygous or heterozygous for height?

3. In dogs, wire hair is due to a dominant gene. Is it possible to mate 2 wire-hair dogs that would produce a puppy with smooth hair? What are the genotypes of the two parent dogs?

A Christian Student'S Guide to Truth in Science Stanley J. O'Briant, 2015-03-13 This book exposes the attempt to teach atheistic evolution to students often ridiculing their faith in God The classrooms in our schools have become the battlegrounds for the minds of our children Since the introduction of evolution by Charles Darwin there has been a growing list of atheist professors who vigorously fight any religion The classrooms of America should not be the battlegrounds of any religion but evolution is a religion It has no place in the classroom since it does not offer any information that improves the teaching of any science class except evolution itself There is no proof of evolution only assertions innuendos credulity belief without proof and suppositions Fully one third of all geology textbooks deal with evolution which is founded only opinion and undocumented assertions Therefore it should be removed from all textbooks Dr David Menton who taught medicine at the Washington School of Medicine in St Louis Missouri for twenty five years stated that he never once needed to reference evolution in any medical class A coalition of organizations such as the National Academy of Sciences whose members are 93% atheist or agnostic and the National Center for Science and Education control most of the government grants intended for schools use fully support the atheism of evolution and they attack any criticism of evolution *Project Earth Science* Alfredo L. Aretxabaleta, Gregg R. Brooks, Nancy W. West, 2011 How well can your students Explain why ice floats Model ocean currents Predict tides Describe the proper clean up of an oil spill *Project Earth Science Physical Oceanography* Revised 2nd Edition immerses students in activities that focus on water the substance that covers nearly three quarters of Earth's surface Eighteen ready to use teacher tested classroom activities and supplemental readings offer explorations and straightforward explanations to foster intuitive understanding of key science concepts Students cover topics such as the structure of water molecules saltwater and fresh water

A Student's Guide to Open Science: Using the Replication Crisis to Reform Psychology Charlotte Pennington, 2023-02-06 Dr Charlotte R Pennington has pulled off a remarkable trifecta of being clear concise and comprehensive in covering the origins of the open science movement and practical advice for adopting the behaviors Professor Brian Nosek Executive Director Center for Open Science University of Virginia US I believe this book will be extremely valuable to both students and academics who wish to further their understanding of transparent research in psychology and I have already taken steps towards adding this as a core text in my department Psychology Teaching Review My hope is that every psychology student will finish their degree with a heavily annotated well thumbed copy of this important and timely book Dr Madeleine Pownall University of Leeds UK This book should be on the reading list for all university science degrees and on all library bookshelves It is concise accessible and remarkably interactive with brilliant use of examples and learning activities Is there a better instruction manual on how to do science properly If there is I haven't seen it Professor Chris Chambers Cardiff University UK This book will equip future generations with the tools necessary to improve our disciplines and thereby represents a significant ray of hope for the future Essential and timely Dr

Emma Henderson University of Surrey UK A Student's Guide to Open Science explores the so called replication crisis in psychology the inherent difficulties in replicating or reproducing research results to test the robustness of findings while delving into the ways that open science can address the crisis by transforming research practice Students will develop a fundamental understanding of the origins and drivers of the crisis and learn how open science practices can enhance research transparency replication and reproducibility With a handy digestible guide for students and researchers alike on how to implement open science practices within their own workflow as well as pedagogic teaching and learning activities that can be re used by educators Pennington's new book is an essential guide to navigating the replication crisis Key features of this book include An overview of landmark events that will mark the history of the replication crisis Case studies of classic psychological studies undergoing replication Test yourself activities to reinforce learning of key concepts including an open science crossword Top tips for adopting open science practices including study preregistration Registered Reports and open materials code and data Useful illustrations to aid understanding and facilitate revision New concepts and practices can often feel overwhelming but this book aims to help students and educators pick what they want from the open science buffet and return to the table to fill up their plates again and again Remember we are all students of open science and will be for many years to come Dr Charlotte R Pennington is a Lecturer in Psychology at Aston University Birmingham UK and a Fellow of the Higher Education Academy She is an expert in open science and advocates for the teaching of this within higher education pedagogy
